

Method overview

Four vulnerability factors:
 a) Renter households
 b) Low-income households (0-80% MFI)
 c) People of color
 d) Lacking four-year degree
 Composite vulnerability is the sum of the quintile score that each census tract ranked across all four factors.

Data sources:
 1. 2011-2015 American Community Survey (ACS)
 2. U.S. Dept. of Housing and Urban Development, CHAS Data, 2010-2014.
