General

33.415.010 Purpose
The Centres Main Street overlay zone encourages a mix of commercial, residential and employment uses on the key main streets within town centers and neighborhood centers identified in the Comprehensive Plan. The regulations are intended to encourage a continuous area of shops and services, create a safe and pleasant pedestrian environment, minimize conflicts between vehicles and pedestrians, support hubs of community activity, and foster a dense, urban environment with development intensities that are supportive of transit.

The following development is prohibited within 100 feet of a transit street:

A. Drive-through facilities; and
B. Houses, attached houses, and duplexes.

33.415.310 Minimum Floor Area Ratio
A. In the Inner Pattern Area the minimum floor area ratio (FAR) for all new development is 0.5 to 1. Pattern areas are shown on Map 415-1.
B. In the Eastern and Western Pattern Area the minimum floor area ratio (FAR) for all new development is 0.25 to 1. Pattern areas are shown on Map 415-1.

33.415.320 Maximum Building Setback
In the Inner Pattern Area, at least 70 percent of the length of the ground level street-facing facade of the building must meet the maximum building setback standard of the base zone. If the site has three or more block frontages, this standard only applies to two frontages. In the case of sites with three or more block frontages, the two frontages subject to this standard are those with the highest transit street classifications. If multiple streets have the same highest transit street classification, the applicant may choose on which streets to meet the standard. Pattern areas are shown on Map 415-1.
33.415.330 Location of Vehicle Areas

A. **Purpose.** The vehicle area regulations help minimize conflicts between vehicles and pedestrians on transit streets, and create a pleasant, pedestrian-oriented environment by limiting the areas where parking and vehicular activity may be located on site.

B. **Location of vehicle area.** The following limitations apply on transit streets. Pattern areas are shown on Map 415-1:

1. In the Inner Pattern area, no more than 30 percent of any transit street frontage may be used for vehicle areas; and
2. In the Eastern and Western Pattern areas, no more than 50 percent of any transit street frontage may be used for vehicle areas.
