NOTICE

THE SOUTH WATERFRONT PLANT LIST MOVES FROM THE ZONING CODE TO THE PORTLAND PLANT LIST

In conformance with directives included in the administrative rule update to the *Portland Plant List* completed in 2016 and the recently adopted *Central City 2035 Plan*, the South Waterfront Plant List has been removed from its previous location in Title 33, Planning and Zoning (Zoning Code), and will be moved to the Portland Plant List as an area-specific plant list, which is updated through an administrative rule.

Attachment A, Interim South Waterfront Plant List, will serve as the applicable plant list for all parcels in the Greenway Overlay Zone in South Waterfront (33.510.253). This change is interim until it can be finalized in the Portland Plant List. The update is expected to be complete in fall 2018.

Background

The *Portland Plant List*, first established in 1991, provides a user-friendly guide to plant species found in Portland and the metropolitan region. The *Portland Plant List* is comprised of two lists and supporting information: the Native Plants List and the Nuisance Plants List.

Both plant lists are integral to the City of Portland's natural resource protection programs and invasive species management strategy. Only plants on the Native Plants List may be planted in Environmental Overlay Zones and Pleasant Valley Natural Resource Overlay Zone. Native plants are prioritized in the Greenway Overlay Zones. Plants on the Nuisance Plant List may not be planted in any of the overlay zones identified above or in any City-required landscaped areas or mitigation sites. The *Portland Plant List* also includes a Required Eradication List of plants that must be removed if discovered anywhere in the city.
