Definition	Land associated with building purchases, developable sites, or permanent easements	Capital Project(s) expected to be open at fiscal year's end, building projects, improvements to land projects and infrastructure projects	Land use rights are easements, rights of way, water, timber, air and mineral rights which grant the City the ability to use, obtain, harvest, mine, or otherwise use resources on land not owned by the City.	Trademark is a word that distinctly indicates ownership of a product or service, and it is legally reserved for the exclusive use of that owner. A copyright is the exclusive legal right to reproduce, publish, sell or distribute the mater and form of something (as literary, musical, or artistic work). And a patent is the legal right to use an invention.	Relatively permanent structures housing persons or property, on foundations, and those fixtures permanently attached	>\$10,000, AND expected life > 10 years. Examples: bicycle racks, fences, and walkways.	>\$5,000, add on components that may be <\$5,000, AND expected life > 1 year. Examples: Vehicles, computers, and software developed by non City resources	Computer software can be purchased or licensed, internally generated or a website. If they are created or produced by the City or by an entity contracted by the City, or if acquired from a third party but require more than minimal incremental effort to achieve expected level of service capacity.	Land use rights are easements, rights of way, water, timber, air and mineral rights which grant the City the ability to use, obtain, harvest, mine, or otherwise use resources on land not owned by the City and when the length of their life is limited by contractual or legal provisions.	Trademark is a word that distinctly indicates ownership of a product or service, and it is legally reserved for the exclusive use of that owner. A copyright is the exclusive legal right to reproduce, publish, sell or distribute the mater and form of something (as literary, musical, or artistic work). A patent is the legal right to use an invention. And when the length of their life is limited by contractual or legal provisions.	>\$10,000, AND expected life > 10 years. Examples: bridges, dams, drainage, lighting, and parking meter systems, pump stations, roads, treatment plants, tunnels, and water and sewer lines .
Donated?	Capitalize appraised value, at transfer, by forwarding Council approved ordinance, or bureau approved donation contract										
Purchased?	Capitalize cost(s) used for Material Management Requisition (MM) on payment authorization via Accounts Payable (AP), including: purchase price, commissions, attorney fees, escrow fees, title and recording fees, delinquent taxes paid by the buyer, surveying costs, draining, filling and grading costs, judgments levied, incidental costs in acquiring ownership and title, other costs of preparation for the intended use such as removal of an old building, less proceeds from salvaged materials.	Capitalize cost(s) used for MM on payment authorization via AP, including: costs as listed under "final" asset classification.	Capitalize cost(s) used for Material Management Requisition (MM) on payment authorization via Accounts Payable (AP), including: purchase price, commissions, attorney fees, escrow fees, title and recording fees, delinquent taxes paid by the buyer, surveying costs, draining, filling and grading costs, judgments levied, incidental costs in acquiring ownership and title, other costs of preparation for the intended use such as removal of an old building, less proceeds from salvaged materials.	Capitalize cost(s) used for asset development, legal fees, filling, incidental costs in acquiring ownership and title, and other costs of preparation for the intended use.	Capitalize cost(s) used for MM on payment authorization via AP, including: purchase price, commissions, attorney fees, escrow fees, title and recording fees, delinquent taxes paid by the buyer, surveying costs, draining, filling and grading costs, judgments levied, incidental costs in acquiring ownership and title, other costs of preparation for the intended use such as removal of an old building, less proceeds from salvaged materials.	Capitalize cost(s) used for MM on payment authorization via AP, including: purchase price, surveying costs, draining, filling and grading costs, judgments levied, incidental costs in acquiring ownership and title, other costs of preparation for intended use such as removal of an old building, less proceeds from salvaged materials.	Capitalize cost(s) used for MM on payment authorization via AP, including: purchase price, sales tax, freight charges, shipping insurance, direct costs related to assembling, installing and testing.	Purchased - capitalize cost(s) used for MM on payment authorization via AP, including: purchase price, sales tax, freight charges, shipping insurance, direct costs related to assembling, installing and testing. Internally generated software - capitalize cost(s) only during the application development stage, including: the design of the chosen path, software configuration and software interfaces, coding, installation to hardware and testing, and the parallel processing phase.	Capitalize cost(s) used for Material Management Requisition (MM) on payment authorization via Accounts Payable (AP), including: purchase price, commissions, attorney fees, escrow fees, title and recording fees, delinquent taxes paid by the buyer, surveying costs, draining, filling and grading costs, judgments levied, incidental costs in acquiring ownership and title, other costs of preparation for the intended use such as removal of an old building, less proceeds from salvaged materials.	Capitalize cost(s) used for asset development, legal fees, filling, incidental costs in acquiring ownership and title, and other costs of preparation for the intended use.	Capitalize cost(s) used for MM on payment authorization via AP, including: purchase price, commissions, attorney fees, escrow fees, title and recording fees, delinquent taxes paid by the buyer, surveying costs, draining, filling and grading costs, judgments levied, incidental costs in acquiring ownership and title, other costs of preparation for the intended use such as removal of an old building, less proceeds from salvaged materials.
