

Green Spend Snapshot

CITY OF PORTLAND PROCUREMENT SERVICES
Fiscal Year 2016-17

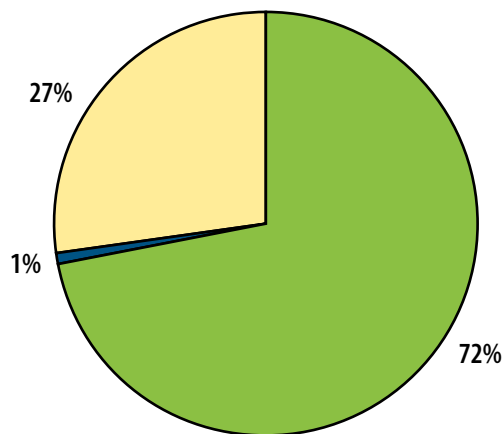

As guided by the City's Sustainable Procurement Policy and related sustainability directives, the City of Portland aims to take a comprehensive approach to procuring goods and services such that environmental and social impacts are incorporated into procurement decisions along with traditional fiscal considerations. While the scope of this work affects a large variety of City purchases, the following data is a green spend snapshot from those City contracts where vendor usage reports are available.

Office Supplies

¹ Does not include most white copy/printer paper, as that is provided on a different contract.

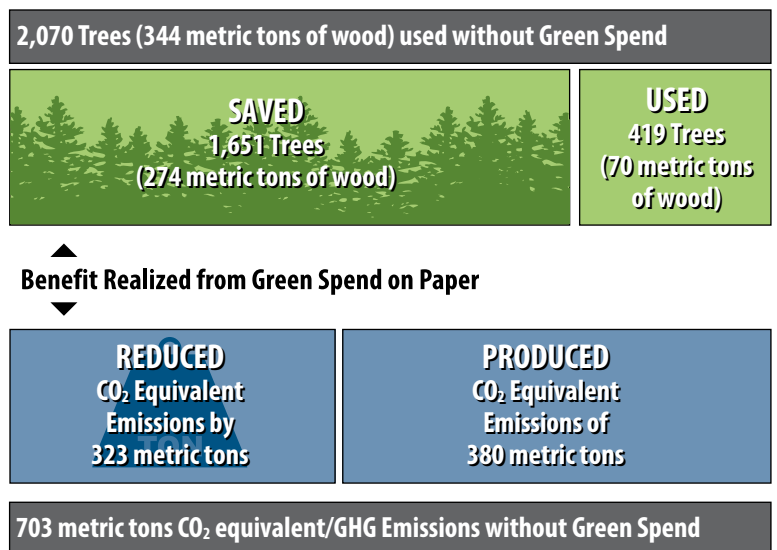

Office Paper

Recycled Content
 100% PCW
 30-50% PCW
 0% PCW

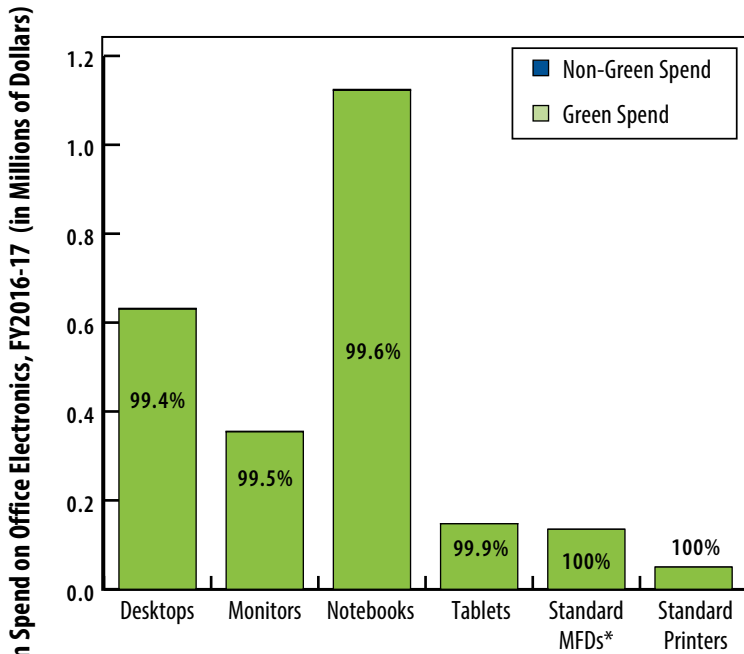

**White, Cut-sheet, 20 lb.,
8.5 x 11 inch Paper
FY 2016-17
(By Quantity Purchased)**

Environmental Benefits Realized from Office Paper Green Spend, FY 2016-17

Environmental impact estimates were made using the Environmental Paper Network Paper Calculator Version 4.0. For more information visit www.papercalculator.org.

Office Electronics

Green Spend includes products that are ENERGY STAR qualified or EPEAT registered.
*MFD = Multi-Function Device
