

How to Delete your Temporary Internet Files

Step 1: Open Internet Explorer and select the **Tools** icon  in the upper right of the page. Select **Internet Options** from the menu.

Step 2: On the Internet Options window, in the Browsing history section, click the **Delete** button.

Step 3: On the Delete Browsing History window, make sure the **Temporary Internet files** option is checked. (You can uncheck all the others). Click the **Delete** button.

Step 4: Close Internet Explorer and reopen it.
