

OCT Create Manual Request Billings & Invoices

Module: PSCD // Process: Billing and Invoicing.

Transactions Used: FKKORD1

Overview

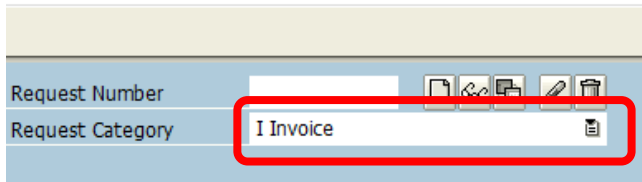

All quarterly filings using Form A are processed through the automated processing model. However, some filings do not fit that model and therefore must be billed and invoiced manually. Examples include Forms B, C, D, F, audit recoveries, and penalties assessed from audits.

The process used to create manual billings in PSCD is called a Request. One Request can be created for multiple billings from multiple customers; a separate line item should be completed for each billing.

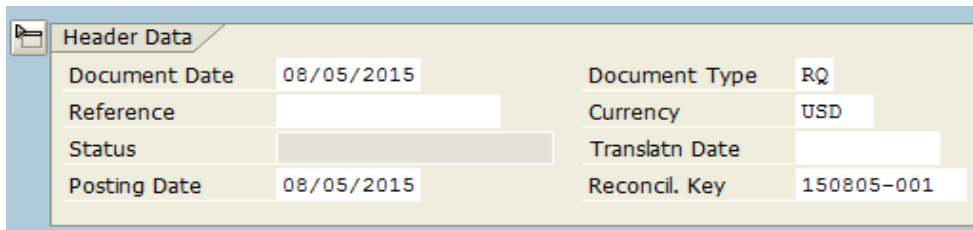

A: Creating Manual Request

1. Enter transaction code **FKKORD1**.
2. For Request Category, select **I Invoice**.
3. Hit *Enter* key.
4. The Header Data should default in with the current date for Posting Date, RQ for Document Type, and a default Reconcil. Key. (If the Reconcil. Key has been used and closed previously, you will need to change it to the next sequential number).
5. Change Document Date to the received date of the filing report (if different from current date).

Request Edit

The screenshot shows the 'Request Edit' form. The 'Request Category' field is highlighted with a red box and contains the text 'I Invoice'. The 'Request Number' field is empty. There are several icons to the right of the fields, including a magnifying glass, a printer, and a trash can.

The screenshot shows the 'Header Data' form. The fields are as follows:

Document Date	08/05/2015	Document Type	RQ
Reference		Currency	USD
Status		Translatn Date	
Posting Date	08/05/2015	Reconcil. Key	150805-001

MTrans	STrans	Description	Use
FARR	RVAU	FA - Revenue Audit Recovery	Billing for audit recovery for Franchises
FARR	RVOR	FA - Revenue Original	Billing for quarterly/annual filings for Franchises
FARR	RVPN	FA - Revenue Penalty	Billing for penalties for Franchises
SYCL	9080	Clearing	System use only – DO NOT USE
SYPA	9060	Payment on Account	System use only – DO NOT USE
SYPI	0020	Penalty & Interest	System use only – DO NOT USE
SYRF	9080	Return Fee	System use only – DO NOT USE
SYWO	9040	Credit Write Off	System use only – DO NOT USE
SYWO	9050	Receivable Write Off	System use only – DO NOT USE
ULRR	RVAU	UL - Revenue Audit Recovery	Billing for audit recovery for Utilities
ULRR	RVOR	UL - Revenue Original	Billing for quarterly/annual filings for Utilities
ULRR	RVPN	UL - Penalty	Billing for penalties for Utilities

5. In the Request Items section, complete the following:

- Co. Code: COP1
- Contract: Contract object number for item being billed.
- MTrans and STrans: Select the appropriate main and sub transactions. See chart to the left for descriptions. (DO NOT USE any of the main transactions starting with "SY". Those are for system use only).

NOTE: PSCD uses Main and Sub transactions to determine how items are posted from an accounting perspective. For example, General Ledger and Controlling account determinations are based on the main and sub transactions.

- Amount: Enter the amount to be billed.
- Period key: Enter/select the appropriate period key that the billing pertains to.
- Due date: Enter the due date of the report (the due date should be a business day only).

TIP: Use the Due Date Offset information in the contract object to help determine the due date.

6. Continue to add line items for items to be billed.
7. Once all items have been entered, hit *Enter*.
 - Default finance information, such as cost center, GL account, Fund, etc. will appear.
8. If the information is correct, click **Save** 
9. The request and billing document have been created; the request number will appear at the bottom of the screen.
10. Click *Extras* > *Generated Documents* on the top menu bar.
11. The invoice document number will be displayed.
12. Double-click on the document number to display the document.
