Parameter Selection	Org, Decision Package
Available Columns	None. Columns are predetermined in the report setup
Description	<p>Report displays information based on the scenario selections made for each decision package through the Info Edit tool. In Info Edit you can choose to display a decision package in scenario 1, but not display the package for scenario 2. This will allow you to perform what if analysis for decision making.</p> <p>After the selections have been made in the parameter box, and the report is run, a second box will appear asking you to specify your retrieval arguments. Here you must identify the stage or stages of the decision packages you wish to view in the report. Valid selections are A, B, C, D, E or F. <i>Note: It may be helpful to include the stages you are going to select in the subtitle field of the parameter selection box.</i></p>

11/3/2004

Page 1 of 3

Form: d_generic_ss3p_n

Parameter Selection	Org, Program
Available Columns	8
Description	Generic report by org and program. Can be expanded to include projects, funds, center codes, and decision packages (by request to system administrators). Data is displayed at the six digit account level detail without subtotals for major objects. Recommended use of the report is to compare line items over a time period (identified through column selection). The report does not contain a lot of formatting, and thus is not recommended for distribution to high level managers or the public.

Page 8 of 22

Font: d_formstatus_n

Parameter Selection	Org, Decision Package
Available Columns	None. Columns are predetermined in the report setup
Description	<p>Report displays information on every decision package form (serial number) created in the org selected. The description refers to the name given to the individual form through the decision package form parameter box. The name of the decision package as identified through Info Edit is not displayed.</p> <p>The report is useful for checking the status of your decision package forms to ensure that all of the necessary forms have been moved to the correct stage. The time stamp reflects the last time the form was saved.</p>

Parameter Selection	Org, Program
Available Columns	None. Columns are predetermined in the report setup.
Description	The report displays performance measure information for the budgeted year, current year, and four prior years. The measures are broken out by org, then program, then type (efficiency, effectiveness, workload). The information shown in this report is the same information that will be displayed in the Publisher documents.

P2- Program Summary

City of Portland
Program Summary Report

Accounting
Citywide Goal: Deliver efficient, effective, accountable svc
Bureau Goal: Strengthen stewardship of the City's resources

Program Description:

The Accounting Division provides accounting, financial reporting, and management of the City's corporate accounting systems and processes. The activities of the program include the following:
 Ensure accounting operations throughout the City result in accurate, complete, and timely information;
 Establish and maintain Citywide accounting standards;
 Review, monitor and process payments to vendors, billings to City creditors and employee paychecks;
 Support the ability of operating bureaus to achieve fiscal compliance, accuracy and timeliness;
 Monitor bureau accounting operations to ensure compliance with City, State and Federal regulations and generally accepted accounting principles and that adequate internal controls are in place;
 Support preservation of the Aaa credit rating from Moody's Investors Service;
 Prepare financial reports that comply with current accounting principles and regulatory requirements; and
 Prepare the Comprehensive Annual Financial Report (CAFR).

Changes to Services and Activities:

The Current Appropriation Level budget for Accounting provides for the following new efforts: in FY 2005-06 several Accounting program staff will be dedicated to the Enterprise Business Systems (EBS) project without backfilling their positions, requiring the remainder of the program to absorb the increased workload.

Parameter Selection	Org, Program
Available Columns	None. Columns are predetermined in the report setup
Description	<p>The report is similar to the Program Summary report. It includes the bureau goal, Citywide goal, program description, revenue/expense information, and performance measures associated with a particular program. However, instead of the changes to services narrative, bureaus are required to include narrative on the results of the program in the prior year. The data columns are also different to add focus to the prior year.</p> <p>This report is required in the submittal documents for the Fall BuMP. Narrative entered for the 2004-05 results description will not be stored in the system after the BuMP is completed.</p>

land_centercode_uml

Parameter Selection	Org, Center Code (Activities)
Available Columns	N/A
Description	The report provides intermediate level (IML) code information for each center code, as well as the status of that center code (Active/Inactive). The report can be run by org or by individual center codes. To report on a range of center codes, insert a dash between the first and last center code in the range (ex. 15939662-15939701). To retrieve all center codes in a given org, select the org and leave a '*' in the activities field.
