FUND OVERVIEW

The Environmental Remediation Fund (ERF) was established by City Council in FY 1993-94 to provide funding to remediate former solid waste disposal sites for which the City is liable.

Portland Harbor Superfund

Beginning in FY 2005-06, funding for the Portland Harbor Superfund program moved to the Environmental Remediation Fund with resources provided by cash transfers from the Sewer System Operating Fund supplemented by interest earnings from the ERF. Including the Portland Harbor Superfund program within the ERF is consistent with the purposes of the ERF and distinguishes the program from the routine sewer system operations that are budgeted for, and funded within, the Sewer System Operating Fund.

Land Acquisition and Remediation of the Guilds Lake Property

The Guilds Lake property is a former landfill operated by the City from 1910 through the late 1940s. The acquisition and remediation of this site was financed by the Environmental Remediation 1993 Series A Revenue Bonds issued in November 1993. The Guilds Lake remediation was completed in FY 1994-95. Property maintenance and management and environmental monitoring of the site are funded as required by the Department of Environmental Quality (DEQ).

Lease income from current tenants on the City-owned Guilds Lake site supports the ERF's operating and capital expenditures. This revenue source, along with the fund's interest earnings and cash transfers, are used for remediation projects.

Managing Agency

Bureau of Environmental Services

SIGNIFICANT CHANGES FROM PRIOR YEAR

Portland Harbor Superfund

A \$5.2 million cash transfer from the Sewer System Operating Fund will fund the majority of the Portland Harbor Superfund program. FY 2009-10 personal services expenditures are budgeted at 8.1% above the FY 2008-09 Revised Budget due to the filling of a vacancy at a level above the budgeted entry rate.

External materials and services for Portland Harbor Superfund work are budgeted at \$4.6 million, about the same as the FY 2008-09 Revised Budget. Payments to the Lower Willamette Group are budgeted to remain constant at \$2.3 million. Internal materials and services expenditures, when compared with the FY 2008-09 Revised Budget, are decreasing by 18.3% due to the completion of over \$280,000 in updates to the Guilds Lake building which houses tenants.

The fund also recognizes an additional \$360,000 in revenue from the Police Bureau for renting a portion of the Guilds Lake Facility. Income from tenants on the City-owned site supports the fund's expenditures.

FUND OVERVIEW

The Hydroelectric Power Bond Redemption Fund pays the debt service due on revenue bonds that were issued to finance construction of the Portland Hydroelectric Project (PHP). This fund is required by the PHP power sales agreement between the City and Portland General Electric (PGE). The trustee for the City's Hydroelectric Power Revenue Refunding Bonds holds the assets in this fund and serves as paying agent for the bonds.

As partial payment for the sale of electricity that is generated at the PHP, this fund receives monthly payments from PGE for the annual net debt service due on the City's Hydroelectric Power Revenue Refunding Bonds. Requirements include debt service to be paid on the outstanding Hydroelectric Power Revenue Refunding Bonds and a debt service reserve held in ending fund balance.

FUND OVERVIEW

Description

The Hydroelectric Power Operating Fund supports the administration and monitoring of the Portland Hydroelectric Project (PHP) through the Portland Water Bureau's Hydroelectric Power Division. With the exception of debt service on the PHP revenue bonds, all expenditures needed to meet the City's responsibilities for the PHP are paid by this fund.

Resources

The primary revenue source for this fund is power sales payments made to the City by Portland General Electric (PGE) for the purchase of electricity that is generated at the PHP. The power sales revenue received by this fund consists of two PGE payments:

1. PGE pays this fund an annually adjusted amount to reimburse the City's expenses associated with administration, regulatory compliance, and water quality monitoring related to PHP operations.
2. PGE pays this fund a second amount that serves as a profit payment tied to the actual amount of power generated annually by the PHP. In an average year, this amount is about \$228,000, less the annual reduction of approximately \$194,500 in credit to PGE for debt service on a sum of Hydroelectric Power Revenue Bond proceeds previously used by the City for non-project purposes.

Managing Agency

Portland Water Bureau

SIGNIFICANT CHANGES FROM PRIOR YEAR

Payments from PGE

In FY 2009-10, the amount of reimbursement from PGE to the City that is dedicated for administration, regulatory compliance, commercial insurance, and water quality monitoring expenses related to the PHP is projected to be \$629,900 compared to the FY 2008-09 Revised Budget of \$652,201.

PGE pays the City annually for profit on power generated by the PHP which for FY 2009-10, calculating the projected gross profit amount of \$222,300 less the contractual credit to PGE, will then provide a net profit payment of approximately \$27,800.

Maintenance to the PHP

In FY 2009-10, the Hydroelectric Power Operating Fund has budgeted \$125,000 for cash transfers from the Hydroelectric Power Renewal & Replacement (R&R) Fund to this fund and then an equal amount of expenditures to reimburse PGE for their costs associated with an ongoing background level of repair and replacements to the PHP facilities.

The FY 2009-10 budget also includes a one-time authorization for an additional \$175,000 transfer from the Hydropower R&R Fund to the Hydropower Operating Fund and associated expenditures from this fund to accommodate specific repair and replacement needs which may arise due to the increasing age of machinery and equipment at the PHP. The additional transfers and expenditures will only be processed as actual repair and replacement projects are completed by PGE for the PHP.

FUND OVERVIEW

Description

The Hydroelectric Power Renewal and Replacement (R&R) Fund is a sinking fund for the Portland Hydroelectric Project (PHP). It provides resources for the repair and replacement of major equipment and facilities that become damaged or worn out. The existence of this fund is required by the PHP power sales agreement between the City and Portland General Electric (PGE), and its assets are held by the trustee for the City's Hydroelectric Power Revenue Bonds.

Managing Agency

Portland Water Bureau

SIGNIFICANT CHANGES FROM PRIOR YEAR

In FY 2009-10 the R&R Fund has budgeted \$125,000 for cash transfers to the Hydroelectric Power Operating Fund to pay for ongoing repair and replacements of the PHP facilities.

\$175,000 Additional Repair & Replacement Funding in FY 2009-10

The FY 2009-10 Adopted Budget includes a one time authorization for an additional \$175,000 transfer from the Hydropower R&R Fund to the Hydropower Operating Fund to accommodate specific repair and replacement needs that may arise due to the increasing age of machinery and equipment at the PHP. The additional requested funding will only be transferred as actual repair and replacement projects are completed for the PHP. The revenue needed to support this higher level of renewal and replacement work has been anticipated and is factored into PGE's power sales payments to the City as stipulated in the PHP power sales agreement.

FUND OVERVIEW

The Sewer System Construction Fund receives revenues to fund sewer system capital projects. Direct expenditures for capital projects are budgeted within the Sewer System Operating Fund and reimbursed by the Sewer System Construction Fund. The primary resources for the capital program are proceeds from the sale of sewer system revenue bonds, transfers from the Sewer System Operating Fund for cash financing of capital improvements, and line and branch charges from new sewer connections.

Managing Agency Bureau of Environmental Services

SIGNIFICANT CHANGES FROM PRIOR YEAR

Bond and note sales of \$384.5 million reflect the sale of sewer revenue bonds to fund the capital improvement program for another 18 months to two years.

State sources reflect the anticipated State Business Energy Tax Credit of \$2.5 million for the Columbia Boulevard Wastewater Treatment Plant Co-Generation Facility.

Other Cash Transfer expenses of \$248.7 million reflect the reimbursement of the Operating Fund for CIP expenditures, including \$16.5 million related to the CIP local economic stimulus package in the Adopted Budget.

FUND OVERVIEW

This fund pays the principal and interest on revenue bonds, notes, and state loans issued to finance sewer system improvements.

Managing Agency Bureau of Environmental Services

SIGNIFICANT CHANGES FROM PRIOR YEAR

The fund is managed on a cash basis, with cash transfers from the Sewer System Operating Fund set to maintain a \$10,000 unrestricted ending cash balance, plus any restricted cash balances as required by bond and loan covenants (although no restricted balances are required in this budget).

Debt service is paid from sewer and stormwater user charges and other revenues of the Sewer System Operating Fund, with cash transfers from the operating fund totaling \$120.0 million in FY 2009-10. The total amount of sewer system debt outstanding at the beginning of FY 2009-10 is estimated to be \$1.03 billion for first lien bonded debt, and \$347.4 million for second lien bonded debt, notes, and loans.

FUND OVERVIEW

The purpose of the Sewer System Operating Fund is to account for revenues and expenses associated with the development, maintenance, and operation of the City's sanitary sewer and storm drainage system. Fund resources include sewer and drainage charges, wholesale contract revenues from other governmental jurisdictions, reimbursements for services provided to other bureaus, and reimbursements from the Sewer System Construction Fund for capital expenses.

Managing Agency Bureau of Environmental Services

SIGNIFICANT CHANGES FROM PRIOR YEAR

Resources

Sewer rate revenues of \$221.4 million are the largest source of revenue.

Service charges and fees, which include sewer rate revenues, connection charges, wholesale contract revenues, and other miscellaneous charges, are forecast to increase to about \$236.8 million for FY 2009-10. Sewer rate revenues, budgeted at approximately \$221.7 million, are based on the following assumptions: an average single family residential bill increase of 6.5%, an increase of 0.5% in the number of customer accounts, and a 1.5% decrease in usage per customer. Connection charge receipts are projected to be \$11.5 million in FY 2009-10.

Requirements

Personal services are budgeted to increase 1.2% over the FY 2008-09 Revised Budget, which includes \$1.1 million of cost of living increases that FY 2009-10 does not. The increase is due to the addition of 4.0 FTEs for Clean River Rewards. An additional two staff positions within System Development and Wastewater are left unfunded, resulting in a savings of over \$140,000. One district engineer is added to address collection system maintenance issues and one CIP design technician is added, converting a contract position to a City position. Six positions are planned for the new Healthy Working Rivers Program.

External materials and services decreased \$11.8 million due to a late year budget adjustment in FY 2008-09 of an additional \$10 million to better reflect CIP program costs. Without the increased resources in FY 2008-09, FY 2009-10 would be at nearly the same levels as last year. A local economic stimulus package of \$2.5 million has been added in materials and services for tree planting and invasive species control in support of the Grey to Green Initiative. Internal materials and services increased \$2.7 million or 7.2%. Adding to the increase are nearly \$1.0 million of additional resources for collection system maintenance activities. Other increases within internal materials and services are services required by CIP program activities, specifically \$3.0 million for the Eastside Streetcar.

Capital outlay is \$207.6 million in FY 2009-10 versus about \$146.0 million in the FY 2008-09 Revised Budget. The \$61.6 million increase reflects the construction of the Portsmouth Force Main, the continuation of the Eastside Tunnel projects, and a local economic stimulus package of \$16.5 million, of which \$11.7 million is for sewer repair and upgrade projects in Oak and Fanno basins, \$200,000 is for green street facilities, \$800,000 is for habitat restoration and enhancement at the Tryon Creek confluence, \$3.0 million is for sewer relocation work in support of the Eastside Streetcar, and \$750,000 is for reconstruction of substandard private party sewers.

Cash Transfers and General Fund Overhead

General Fund overhead increased nearly \$375,000. Cash transfers to other funds are budgeted at \$151.0 million for FY 2009-10. Reasons for the change from the FY 2008-09 Revised Budget of \$161.6 million include:

- ◆ Transfers to the Sewer System Construction Fund are budgeted at \$2.0 million in the FY 2009-10 Adopted Budget, a \$15.0 million decrease from the FY 2008-09 Revised Budget that included additional appropriation to move funds for FY 2008-09 year-end
- ◆ Transfers to the Sewer System Debt Redemption Fund are budgeted at \$120.0 million, a \$1.2 million decrease
- ◆ Transfers to the Sewer System Rate Stabilization Fund increased from \$0 in the FY 2008-09 Revised Budget to \$5.0 million to balance coverage requirements
- ◆ Transfers to the Environmental Remediation Fund for Portland Harbor Superfund expenditures are budgeted at \$5.2 million, reflecting an increase for professional services related to source control, Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) program activities, and the Healthy Working Rivers Program

FUND OVERVIEW

The Sewer System Rate Stabilization Fund was created in 1987 to enable the Bureau of Environmental Services to smooth forecast rate increases by managing fluctuations in sewer system revenues over several years. To calculate debt service coverage ratios, the bureau's master bond ordinance requires Sewer System Operating Fund transfers to this fund to be treated as operating expenditures; similarly, transfers to the operating fund from this fund are treated as operating revenues.

Fund balances were built up through FY 1996-97 and drawn down through FY 2001-02 to smooth annual rate increases. Since then and through FY 2009-10, transfers in from the Operating Fund will build the fund balance to offset future rate increases associated with construction of the Eastside Combined Sewer Overflow Tunnel.

Managing Agency Bureau of Environmental Services

SIGNIFICANT CHANGES FROM PRIOR YEAR

Miscellaneous revenues are budgeted lower in FY 2009-10 due to a much lower interest rate on investments and lower cash balances.

FUND OVERVIEW

This fund was closed at the end of FY 2006-07. With repayment of the State Assessment Deferred Loan Fund, there was no further need to segregate remaining balance from other sewer system resources. Remaining fund balance was transferred to the Sewer System Operating Fund.

FUND OVERVIEW

The Solid Waste Management Fund accounts for expenses and revenues associated with the City's oversight of solid waste collection activities in Portland, and the City's efforts to reduce the amount of solid waste through recycling and waste reduction.

The fund supports the Bureau of Planning and Sustainability's Solid Waste and Recycling program and Training, Education, and Outreach program. The fund also supports various sustainability activities within other bureaus.

Revenue sources for the Solid Waste Management Fund include residential franchise, commercial tonnage, and permit fees. Residential franchise fees are set at 5% of haulers' gross revenue, and commercial tonnage fees are set at \$5.80 per ton for garbage disposal.

Managing Agency Bureau of Planning and Sustainability

SIGNIFICANT CHANGES FROM PRIOR YEAR

Creation of Bureau of Planning and Sustainability In January 2009, City Council approved the merging of the Bureau of Planning with the Office of Sustainable Development. The new Bureau of Planning and Sustainability is now the manager of the Solid Waste Management Fund. In that role, it will continue to operate the programs traditionally supported by the fund.

FUND OVERVIEW

The Water Bond Sinking Fund pays for principal and interest on revenue bonds issued to finance water system improvements.

Managing Agency Portland Water Bureau

SIGNIFICANT CHANGES FROM PRIOR YEAR

The primary fund resource in FY 2009-10 is a transfer from the Water Fund of \$23.3 million. The Water Construction Fund will provide a \$0.4 million transfer of interest earnings on bond proceeds. A Bond Reserve Account for \$7.5 million will be established with the 2010 bond sale.

FUND OVERVIEW

The Water Construction Fund is the capital fund of the Water Bureau. This fund pays for equipment and capital expenditures for the water system, including ongoing capital repair and replacement, enhancements, and large and nonrecurring additions to the system.

Managing Agency Portland Water Bureau

SIGNIFICANT CHANGES FROM PRIOR YEAR

Bond Sales The Water Bureau is planning on a \$95.4 million bond sale for the winter of 2010, which includes funding a \$7.5 million bond reserve account to be deposited directly into the Water Sinking Fund. The net bond proceeds deposited into the Construction Fund are budgeted at \$87.9 million.

FUND OVERVIEW

The Water Fund is the operating fund of the Portland Water Bureau. With the exception of debt service, all expenditures are made from this fund for operation, maintenance, and capital assets. Receipts from the sale of water are the primary revenue source for the Water Fund. The cash flow of this fund determines customer rate setting.

Managing Agency Portland Water Bureau

SIGNIFICANT CHANGES FROM PRIOR YEAR

FY 2009-10 Water Fund resources increased by approximately \$16.4 million from the FY 2008-09 Revised Budget. The change in resources includes increases in service charges and fees of \$11.1 million, an increase in cash transfers of \$7.0 million, offset by a reduction in the beginning fund balance of \$2.1 million. The cash transfer increase is from the Water Construction Fund to fund the increased expenditures of the Capital Improvement Plan.

The operating budget decreased \$3.1 million in FY 2009-10 due to the two reduction decision packages required by City Council. The capital budget includes an additional \$20.5 million to comply with the Environmental Protection Agency's Long Term 2 Enhanced Surface Water Treatment Rule (LT2).

FUND OVERVIEW

The Water Growth Impact Charge Trust Fund was established to collect and keep contributions from wholesale customers to help pay for expanded facilities required by growth in their demand for water. The fund was established so those water districts that were experiencing growth would contribute a proportionate share of money toward the next major supply increment, and establishment of this fund ensured that those contributions would be kept separate from other bureau revenues. In 1995, wholesale contributions were suspended with the deletion of the growth section in the wholesale agreements, so the only revenue in this fund is interest earned on the fund balance.

Managing Agency Portland Water Bureau

SIGNIFICANT CHANGES FROM PRIOR YEAR

Ordinance #181360 authorized by City Council on October 17, 2007, directed the Water Bureau to reimburse the wholesale customers who had paid into the Water Growth Impact Charge Trust Fund. The reimbursement was made to the wholesalers on November 14, 2007 from the Water Fund. The ordinance further directed that the Water Growth Impact Fund will reimburse the Water Fund in FY 2008-09 and that the Water Growth Impact Fund will be closed by ordinance in FY 2008-09 at the time of the FY 2009-10 budget adoption.
