**Current Appropriation Level (CAL) Targets**  
FY 2016-17  
City Budget Office  
November 18, 2015

## INTRODUCTION

The attached tables present Current Appropriation Level (CAL) target budgets for Fiscal Year 2016-17. As identified in the City's budget guidance, Council is asking for 5% reduction packages from all General Fund bureaus, except the Portland Housing Bureau. Included in these figures are decisions made in the Fall Budget Monitoring.

The targets are based on a calculation beginning with the FY 2015-16 General Fund Adopted Budget. A variety of inflation factors are applied and adjustments are made for Council decisions and for Citywide budgetary impacts, such as the Public Employee Retirement System (PERS) employer rate changes. For General Fund bureaus, the inflation factor is a weighted average of 0.5% growth in personal services and forecasted inflation for both internal and external materials and services. Additionally, funds associated with cost-of-living adjustments and health benefit increases are included in a separate compensation set-aside target.

Table 1 shows the breakdown between General Fund discretionary and overhead funding by bureau. Table 2 summarizes the targets for various transfers to bureaus and other funds. Table 3 lists targets for special appropriations, while Table 4 lists the remaining discretionary targets (e.g., funds for pension obligation bond debt, contingency, etc.). Table 5 gives a broad summary calculation of how the bureau targets were calculated. Tables 6 and 7 show cut targets, as well as those targets that will not be subject to cuts – either by Council direction or because they are related to debt service payments. Bureaus should use the contact information below or speak to their assigned City Budget Office analyst if they would like more detailed information regarding these calculations.
