

BFM BUDGET FORM BASICS

Instructor: Jess Eden, BFM Administrator, CBO
Fall 2020

Jessica Kinard, Budget Director

Christina Owen, Assistant Director

LEARNING OBJECTIVES

- High level review of Budget Development forms
 - Purpose
 - Form Entry
- Detailed tutorials can be accessed [here](#).
- ***NEW*** for FY 2021-22

ACCESSING BFM

- BFM is cloud based- this means users access BFM through the internet
- BFM works on many browsers;

**Chrome is the recommended
browser for accessing BFM**

<https://portland.bfm.cloud/bfmprod/default.aspx>

WHAT ARE BUDGET FORMS FOR?

- Forms are used to get budget data into the budget database
- All forms require all six master data elements (the Gang of Six): Fund Center, Fund, Functional Area, Commitment Item, Grant, and Funded Program or Project
- Forms can be saved as unbalanced for workflow purposes
- Forms advance through budget process stages
- Forms have multiple tabs
- Not all forms impact the budget (Program Description, Performance, etc.)

BUDGET DEVELOPMENT FORMS

- All budget related forms are accessed under Budget Formulation
 - Technical Adjustment
 - Program Description
 - Project
 - Decision Packages
- Performance and Equity Forms are access under Performance Mngmt
 - Performance Form 1800
 - Performance Meta Data
 - Equity Form

NAVIGATING TO FORMS

- All forms can be accessed from drop downs (shown below)

PERFORMANCE MANAGEMENT

- Performance Measure Form- 1800
 - Used to enter actuals and goal data for individual performance measures
- Performance Measures Chart of Accounts (COA)
 - Used to capture all meta data associated with individual performance measures

PROJECTS

- Project data includes data uploaded from SAP *and* data updated in BFM
- Updating Project Data in BFM is done in two ways:
 - End users report additional information on Capital Projects under

Chart of Accounts → Project → Dimension (user)

- Large bureaus can work with Jess in CBO to do an upload of project narrative data. Please email your CBO analyst and Jessica.eden@portlandoregon.gov to discuss this option further

TECHNICAL ADJUSTMENT FORM PURPOSE

- Base budget revenues and expenditures
 - Used for budgeting non General Fund revenues
 - Used for budgeting merit increases for non represented employees
 - *NOT existing staff costs – changes should be made in PCF*
 - *NOT project revenues and expenditures – use Project Form*
 - *NOT requests for above or below base budget allocations – us Decision Package Form*
- For GF Bureaus - pre-loaded with Current Appropriation Level (CAL) targets
- For All Bureaus – pre-loaded with internal interagency costs
- Should balance Expense=Revenue

TECHNICAL ADJUSTMENT FORM ENTRY

- Changes to the budget are made two ways:
 - Import/Export with Excel - export the technical adjustment form, enter changes in the changes column, and then import the form
 - BFM reads the first tab only
 - NEVER change the order of the columns once exported. Any columns to the right of the Sponsored Program will not be read
 - Manual entry in the form

Form Actions	
<ul style="list-style-type: none">• Close - closes the form• Export – exports the form with current data• Import – takes the user to an interface to upload from Excel• Refresh – refreshes the form	<ul style="list-style-type: none">• Show Filter – will pull up a filter for every column in the form• Add New – adds a new/empty line of data• Copy – will copy the currently highlighted row and pop up an entry window to make changes.

PROGRAM DESCRIPTION FORM PURPOSE

- Creating New Program Offers
 - *NEW* Entering narrative to describe Program Offers will now exclusively be done in [PatternStream](#)
- Attaching Performance Measures to Program Offers

PROGRAM OFFER FORM ENTRY

- Functional Area Program Offers are created at the 6 character Functional Area level
 - For Program Offers to reflect the correct budget amounts, bureaus must budget to a 10 character functional area that rolls up to the desired 6 character functional area
- Users can Add New Program Offers, but not Delete Program Offers
 - Functional areas are used Citywide and not necessarily for any single bureau. What makes a Program Offer unique is the *combination* of the fund center/bureau and functional area
- MAKE SURE TO SAVE YOUR WORK BEFORE CLOSING

PROJECT FORM PURPOSE

- Used for budgeting project related revenue and expenditures
 - For the budget development year, users must budget all revenues and expenses using real commitment items
 - For outyear costs, users can use commitment items 563ONG or 563ITM to indicate ongoing or one time capital costs
 - If users want to use an interagency code (for interagency agreements that are specific to projects) they **MUST** communicate with the other party to ensure both sides use the same:
 - project code
 - funded program
 - agreed upon accounts/commitment items.

PROJECT FORM ENTRY

- Changes to the budget are made two ways:
 - Import/Export with Excel - export the technical adjustment form, enter changes in the changes column, and then import the form
 - BFM reads the first tab only
 - NEVER change the order of the columns once exported. Any columns to the right of the Sponsored Program will not be read
 - Manual entry in the form

DECISION PACKAGE PURPOSE

- Used to budget all positions, revenues, and expenditures associated with the decision package. This form is also where bureaus input narrative for decision packages
- Decision Packages should be created if the bureau wishes to eliminate a Program Offer that was offered in a prior year

DECISION PACKAGE HEADER TAB

- Provide a description of the package.
- Articulate the expected service impacts of the package;
- Analyze the equity impacts of the package; and
- Indicate whether or not this package represents a new activity by checking the “New Activity” box on the right side of the screen
- Select a DP Type
- Rank the DP

Edit Budget Form - 1720

PERSONNEL COST FORECASTING (PCF)

- Employee Maintenance
 - All changes during budget development are made in employee maintenance unless the changes are connected to a decision package

PERFORMANCE FORMS & META DATA

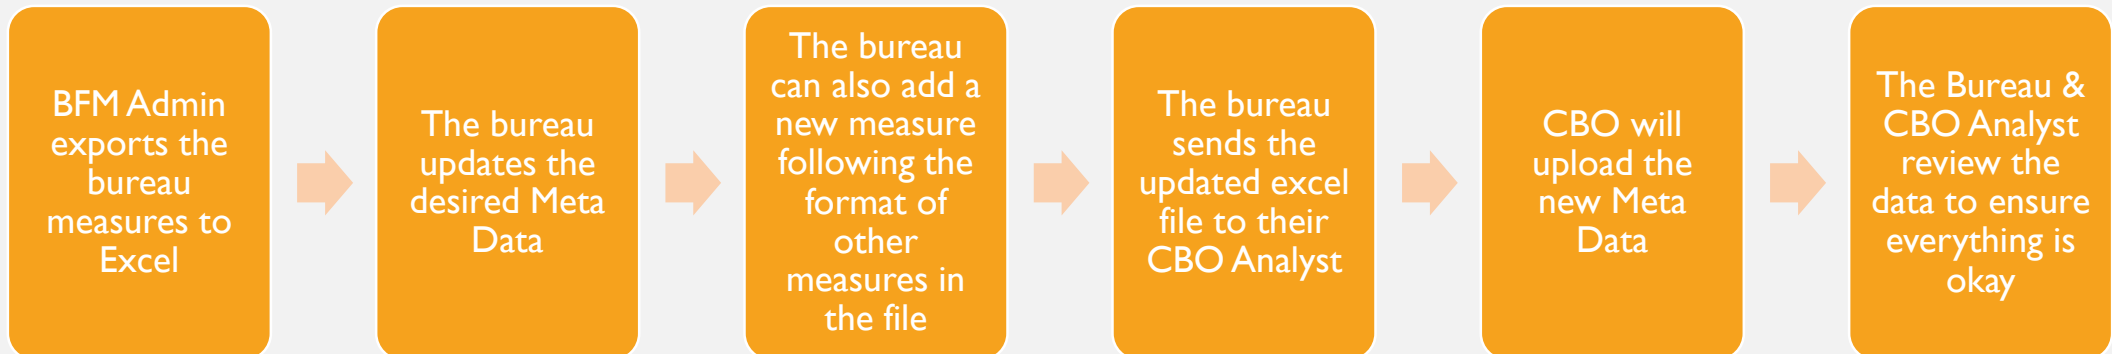

- Performance Measure Data- Form 1800
 - One form per bureau
 - Allows for monthly, quarterly, or annual data
- Historical Updates
 - Historical data can be changed. Please work with your CBO analyst to make changes
- Performance Measures → Dimension
 - Each measure can be edited here, or you can work with your CBO analyst for a bulk upload
- Reporting:
 - Performance Measure MetaData Key for an explanation for what fields are required for performance measures and how to update them in BFM

UPDATING HISTORICAL PERFORMANCE DATA

- Historical Data:
 - BFM Reporting → Performance Management → Performance Measure Update Template
 - This is a tool to help bureau prepare data for updating in BFM. Instructions are in the report
 - Please work with your CBO analyst to complete the process

UPDATING PERFORMANCE METADATA

- Updating Meta Data or Adding New Measures
 - This can be done on a one by one basis at any time in BFM
 - Bulk uploads can be done for large Performance Measure changes

EQUITY FORM

- Can be found under Performance Mngmt
- The form is designed to capture narrative information outlined in the Office of Equity of Human Rights' Budget Equity Tool
- Forms are create one form for the entire bureau, except for the Office of Management and Finance (OMF)
 - OMF creates a new for each Division named [Division] Budget Equity Tool

WHAT'S NEW THIS YEAR?

- CBO recommends using Google Chrome for BOTH BFM and PatternStream
- Demo Environment: https://portland.bfm.cloud/bfmpirt_dev/default.aspx
 - CBO will not update this environment throughout the budget process
 - Some reports (not all) are tied to the demo environment. Please review the currently available reports under BFM Reporting → DEMO ENVIRONMENT REPORTS
 - Please submit requests for new reports to your CBO Analyst and jessica.eden@portlandoregon.gov
- Program Offer Narratives only updated in PatternStream: <https://portland.patternstream.cloud/pads-ui/#/>
