

# REPORTED OFFENSES PER 1,000 RESIDENTS JULY 1, 2019 THROUGH JUNE 30, 2020

FY2019-20 PORTLAND POLICE BUREAU

## BUREAU NOTES

### Portland Police Bureau

The Portland Police Bureau (PPB) serves the residents and the business community of Portland. The PPB uses a three precinct configuration (Central, East, and North) comprised of 60 patrol districts.

The revised budget for fiscal year 2019-20 includes 1,300 full-time positions, 1,001 of these positions are sworn. The budgeted position for sworn members includes 707 officers and 135 sergeants. Actual staffing as of June 30, 2020 included 650 officers and 132 sergeants. The PPB continues to experience staffing shortages due to retirements and retention issues.

### Level of Service

The National Incident-Based Reporting System (NIBRS) provides a standard process for law enforcement agencies to report crime statistics. NIBRS was designed to provide a more comprehensive view of the occurrence of crime when compared to traditional reporting systems. NIBRS does this by reporting all unique offenses within an incident rather than just the most serious offense and by reporting more offense types.

Group A offenses are comprised of the most serious and/or prevalent crimes against persons, property, or society. Group A includes 51 offense types grouped into 24 offense categories. Approximately 59,500 Group A Offenses were reported in FY 2019-20. The majority (80%) were Crimes Against Property. Larceny Offenses (40%) was the most common offense category and Vandalism (12%) was the most common offense type followed by Motor Vehicle Theft (10%).

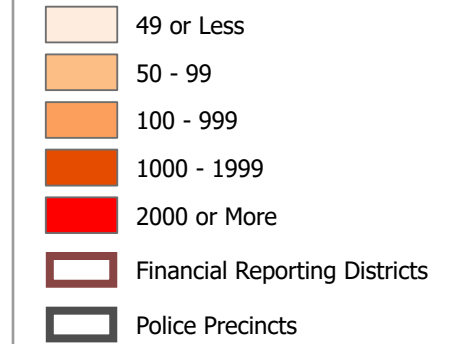

### Map Discussion

The map displays Group A Offenses by police district per 1,000 residents (Crime Rate).

Police districts vary in population and area. Crime rate is based on residential population and does not account for the influence of non-residential populations. Areas such as Downtown and the Lloyd District have low residential populations and high reported crime. The crime rate in these areas are impacted by the non-residents who frequent the areas for employment, entertainment, or transportation.
