***Building Livable Communities Together since 1985***

**Beaumont-Wilshire, Cully, Hollywood, Madison South, RoseCity Park, Roseway, Sumner, and Sunderland**

**Central Northeast Neighbors (CNN) is a community-based non-profit coalition of eight neighborhoods in northeast Portland. Each neighborhood of the coalition has volunteer representatives on the CNN Board of Directors and CNN committees. Central Northeast Neighbors provides assistance in neighborhood involvement, safety and livability, community development and organizing, as well as urban planning.**

**Workforce and Funding:** ONI funding covers 2.6 full time employees, basic office operations and small communications allowances of \$1,200.00 for each of our 8 neighborhoods. This year our coalition needs to raise approximately 10% more funds to supplement our mission.

**Update on Additional FY 2006/2007 Funding:** The additional dollars for communications each neighborhood association received an additional \$200.00 to add to their \$1000.00 towards communications and will be used for their neighborhood newsletters. The remaining funds will be spent to develop, implement and train neighborhoods to maintain their own web sites. Some of the funding will be used to improve the CNN web site as well as on software as needed to support these sites. Any remaining funds will be used to support outreach and projects with underrepresented groups. All of these projects will focus on increasing and retaining membership with a focus on outreach to all underrepresented populations. Our neighborhoods and the coalition are continuing with and developing new outreach ideas and projects. The additional insurance funds were spent obtaining Directors and Officers insurance for all of our neighborhoods and Coalition Board. The cost of this insurance is approximately \$3900.00.

**CNN Coalition Could Use:**

Funding to support Neighborhood Associations.

Funding to meet the needs of our diverse populations and groups currently not partners.

Funding to hire staff to outreach our underrepresented populations.

Funding to offer competitive wages and benefits to retain and hire professional staff.
