

# **DRAFT list**

## **Data sets available to us and/or used by key references we've looked at**

Below are various demographic data sets available we can consider utilizing as criteria for developing equity funding formulas for ONI's community engagement programs.

Which data sets do you think would best help tell a story of disparities within our communities? Your priorities can help focus development of our equity funding strategy.

### **U.S. Census data – 2010, broad categories from short form on ONI website**

- Total population by race/ethnicity
- Age groups
- Household types
- Housing units – tenure

### **U.S. Census data – American Community Survey**

- Selected characteristics of native and foreign born populations
- Educational attainment
- Languages spoken at home
- Limited English speaking households
- Poverty status
- Disability characteristics
- Mean income
- Mean household income/Median earnings/Median household income
- Food stamp
- Age and sex
- Educational attainment

### **Communities of color in Multnomah County – An Unsettling Profile**

- Population– white, people of color
- Population counts of communities of color – official source with initial community-verified counts added in two communities
- Race/ethnicity of students in public schools
- Educational attainment

- Total of those with degrees
- Discipline rates
- Average annual income for different educational levels
- Degrees awarded
- Poverty rates
- Income comparisons
- Unemployment rates
- Wealth
- Household ownership rates
- Identity of those who are homeless
- Oregonians without health insurance
- Birth weights, birthrate, infant mortality, etc.
- Adult incarceration rates
- Police decisions to send youth into justice system
- Early childhood education
- Foster care by race and length of stay
- Voter registration in Oregon
- Voting patterns in Oregon
- Occupational profile

### **Neighborhood District Coalitions – criteria for new funds**

- Existing small grants and communication funds
  - Median household income
  - Population, # of people
  - Number of neighborhood associations per coalition
- Proposed for future new funds (not implemented)
  - Existing volunteers - # of neighborhood associations – 1/3
  - Communication - # of people – 1/3
  - New and diverse volunteers – 1/3
  - # of renters – 1/6
  - # of non-white – 1/6

### **Equity Index for SUN Schools**

- Number of and percentages of kids with free and reduced lunches in each school.
- Number of white vs. students of color.

## **Equity Atlas 2.0 - Coalition for Livable Future**

Includes hundreds of criteria used in their maps. Below are the broad categories:

- Community – Proximity to amenities
  
- Democratic Participation – voting patterns
- Demographics
- Population Density
- Age
- Race and Ethnicity
- Income
- Household Composition
- Immigrants
- Veterans
- Population Overlays – above regional averages
- Economic Opportunity
- Education
- Food – proximity to...
- Health Care
- Health Outcomes
- Healthy Environment
- Housing
- Parks and Natural Areas
- Services and Amenities
- Transportation

## **Multnomah County – Health Disparity Report**

- Was suggested at the June ONI BAC mtg. Need to research how to access.
