Website:		Facebook link: <small>Optional</small>		

1. Please describe how your business will ensure that no one under the age of 21 is admitted, and how your business will educate patrons on the risks of marijuana use by minors.

During non-business hours, all exterior doors will be locked. During business hours, ID will be checked both when a customer enters the business and at time of sale. Any person under 21 who does not have a medical marijuana card will be refused access. Any person under 18 will be refused access even if they have a medical marijuana card. If an employee checking ID has any reason to believe the ID of a customer is invalid, the customer will be refused service and will be asked to leave the premises.

Employee IDs will be checked prior to hiring and no person will be employed who is not 21 and who does not have a valid marijuana worker permit. Signs will be clearly posted at all entry points indicating that minors are not permitted on any portion of the premises. If a minor attempts to gain access to the premises, they will be immediately told to leave and if they do not, law enforcement will be contacted.

2. Please describe how your business will prevent cannabis products from being consumed around or near your business.

We display signage throughout the building warning against cannabis consumption around or near the business and have surveillance with multiple views of the building's surroundings. With careful monitoring of this rule, customers will not take the risk.

3. Please describe how your business will prevent and address potential negative impacts to neighborhood livability such as noise, parking, garbage, or loitering from your patrons.

Controlling noise, litter, loitering, and parking etiquette will help us remain a positive and professional environment both inside and outside the store. Our business creates little to no outside noise that would be considered negative in any way. We monitor parking via surveillance and have no issue discussing parking etiquette with patrons. To control garbage and litter, we have placed trash cans and recycling bins to absorb much of what would otherwise be litter.

4. Please briefly describe your business's process to respond to and resolve complaints and/or concerns from neighboring businesses or residences.

We want all of our neighbors to have a comfortable platform to voice concerns and opinions. We handle all complaints seriously and begin corrective action as soon as possible. If we have contact information from a complaint, we will make sure to follow up for a solution that works well for everyone involved.
