1. Please describe how your business will ensure that no one under the age of 21 is admitted, and how your business will educate patrons on the risks of marijuana use by minors.

1. Upon the customer entering, the employee in the front will greet them, and ask for a valid government issued photo ID. Examples are: US Drivers License, ID Card, Passport, Naturalization Card
2. The Employee must verify that the person and the ID match and that the person is over the age of 21. If they do not match, or the person is not 21, (18 with valid OMMP card) the employee must alert the manager on duty. The manager on duty will then escort that person out of the facility.
3. The employee must ask the customer if they have been in before. If that person is a previous customer, they must ask if they consented to us keeping their history. If yes, the employee must search their name and match the birthdate to insure the transaction will be properly documented. Once the accurate customer information is found, proceed to step 5.
4. If that customer has never been in before, or did not consent, the employee must input Name and Birthdate in Biotracks customer profile fields. That customer must also be designated as a recreational customer in the customer profile. Once completed, press insert to create a profile for that person.
5. The employee must then check in that person in to be added into the cue.
6. The employee may then allow that person, and only that person back into the sales room.
7. The employees in the sales room will then verify the ID and age a second time and then select that person in the computer cue, and verify that that person has not purchased more than the daily allowance.
8. When product is selected, and input into BioTrack, the sale must be committed.
9. Bio track will then record the product purchased, the amount, the date, and the birthdate of person purchasing the product. No sale is to be done without inputting it into Bio Track.

A customer may come in multiple times in the same day, the employees on duty are responsible for checking customer history and allow the customer to purchase more then the daily allowance.

Under NO circumstance is anyone: 1. under 21 (18 with valid OMMP card) allowed admittance to facility. 2. To dispense more than the set daily allowance to any one person per day (A customer can buy 10 seeds, 28 grams of dried flower, 5 grams of extract/concentrates, 72 fl. oz of liquid products, 1 lb of solid cannabis products) We also will only sell up to 6 oz of dried flower to OMMP card holders. Unlimited MindRite hats, shirts, or any other unmedicated merchandise that MindRite offers. All employees must adhere to these guidelines or be subject to disciplinary actions including but not limited to termination. Adhering to these guidelines are a requirement for employment with MindRite.

We have the three "Educate before you Recreate" Posters up in our sales room. We hand out the "Marijuana can make kids very sick" handout to every customer. We always confirm that the cannabis is for the purchaser. We encourage every customer to consume responsibly. We try to ensure our products will be consumed legally and responsibly every time. We also dispense all products in child proof containers that have a label on them that reads "Warning! Keep out of reach of children". We believe in an educational approach to cannabis and continuously discuss appropriate dosages as well as what to do if too much has been consumed. Responsible practices and cannabis education are the priority.

2. Please describe how your business will prevent cannabis products from being consumed around or near your business.

We remind customers not to consume in public. We let our customers know that consuming in public is against the law. We do everything we can to ensure we are not risking our license or business by having our customers consume cannabis anywhere near our business and that our customers are aware of the laws surrounding cannabis consumption in public. We always recommend responsible practices and consumption.

3. Please describe how your business will prevent and address potential negative impacts to neighborhood livability such as noise, parking, garbage, or loitering from your patrons.

We have been open since April 2015 and have not found any of these issues to be problematic. We have good relationships with our neighbors, and have open lines of communication. We try very hard to uplift the views of cannabis in the public eye. We do not want to jeopardize our business in anyway, and by having good relationships with our business and residential neighbors, as well as giving back to local charities, we have been successful. We do also regularly walk around the block and look for garbage, or litter that could be a result of our business. We have also posted a sign in our lobby asking our patrons not to park in the neighboring businesses parking lot. Part of our giving back to the community is that we spearhead a neighborhood clean up monthly with SOLVE Oregon, where our employees and volunteers walk through the neighborhood and remove trash.

4. Please briefly describe your business’s process to respond to and resolve complaints and/or concerns from neighboring businesses or residences.

We have been able to openly discuss any issues with our neighbors, and have been able to put any fears to rest. We are extremely compliant with all the rules and regulations, and try very hard to make sure our customers are respectful of our residential and commercial neighbors. If we were to get a complaint, we would do the best we could to comply or come to an agreement with our neighbor who has an issue. If the party submitting the complaint does not want to be contacted personally, we will then go through the proper channels. Whether it is through our land lord, official representative, or legal matter, we will follow the parameters in accordance with the desires of the plaintiff. We want to do everything possible to make sure our neighbors are comfortable with us doing business and are thought of an a positive resource in the area.
