Phone Number:	(818) 331-9979	Email: <b>samv86@icloud.com</b>		
Website:	<small>Facebook link:</small> Optional			

<b>1. Please describe how your business will ensure that no one under the age of 21 is admitted, and how your business will educate patrons on the risks of marijuana use by minors.</b>
<p>Employees will stop and ask all visitors entering the store for valid government issued identification. Employees will check every person's ID, regardless of how old the person appears. All areas where usable marijuana will be held or made available for sale will be clearly labeled with signs on the doors that read "Restricted Access Areas -No Minors Allowed." All doors accessing the dispensing areas will be secured by commercial-grade locks that can only be opened by designated employees.</p> <p>The business will provide a 3" x 5" card with every purchase containing information about the negative effects of marijuana use by minors and pregnant women. All products are kept in opaque, odor-proof packaging and properly labeled to be kept away from minors in accordance with state law. In addition, the business will post state-issued posters ("Educate Before You Recreate" and "No Use by Minors or Pregnant Women") at all points of sale and various other locations on the premises.</p>

**2. Please describe how your business will prevent cannabis products from being consumed around or near your business.**

The business will have 24-hour security cameras showing the exterior of the premises and employees will make regular sweeps of the exterior of the building and parking area. If an employee sees a patron or other person consuming or attempting to consume marijuana in or around the facility, they will be instructed to contact that person and tell them that marijuana consumption is not allowed at the facility. If that person continues to consume marijuana or does not respond to the employee's instructions, store personnel will be instructed to contact local police and request assistance with removing that person from the premises.

Employees will also be instructed to notify patrons purchasing marijuana items in the store that marijuana consumption around or near the business is not allowed and that patrons who violate this policy will not be permitted to make future purchases from the business.

The business will have notices prominently posted inside the store informing patrons that marijuana cannot be consumed in or around the store.

**3. Please describe how your business will prevent and address potential negative impacts to neighborhood livability such as noise, parking, garbage, or loitering from your patrons.**

Business employees will be assigned to regularly sweep the exterior of the premises and address any litter issues in the parking lot or outside the building. Employees will also make contact with any loitering patrons and ask them to move along. Patrons will be encouraged to use the business's parking lot and not park on the street if possible. Employees will be instructed to respond to any patron making excessive noise or creating a disruption in the local neighborhood. Patrons who are loud, disruptive, or disrespectful of neighboring residents and businesses will receive a warning and then be told they are no longer welcome to patronize the business. If a patron or member of the public becomes threatening or potentially violent, employees will be instructed to contact local police and request their assistance in resolving the situation.

**4. Please briefly describe your business's process to respond to and resolve complaints and/or concerns from neighboring businesses or residences.**

The business will strive to be a good neighbor and promptly respond to any concerns or complaints brought forward by local residents or businesses. Employees will be trained to welcome comments or concerns from neighbors, put them in writing, and ensure that they are submitted to a manager or supervisor for review and follow-up. Concerned neighbors will be invited to provide a phone number or email address so that managers can contact them and personally address any issues.

Any person with a complaint may call or come in person to make it. Should the complaint be regarding a minor issue that can be resolved immediately by an employee on duty (i.e. garbage or debris that needs to be cleaned up or someone consuming marijuana within close proximity), employees will be trained to immediately respond to the problem. Should the complaint involve a more serious concern, a manager will promptly contact the complainant to schedule a phone or in-person meeting.
