Website: <a href="http://www.localleaf420.com">www.localleaf420.com</a>		Facebook link: <small>Optional</small>		

1. Please describe how your business will ensure that no one under the age of 21 is admitted, and how your business will educate patrons on the risks of marijuana use by minors.
<p>All doors and gates will be locked at all times. Prior to allowing any person access to the property, age will be verified by checking ID. Employee IDs will be checked prior to hiring and no person will be employed who does not have a valid marijuana worker permit. Signs will be clearly posted at all entry points indicating that minors are not permitted on any portion of the premises. If a minor attempts to gain access to the premises, they will be immediately told to leave and if they do not, law enforcement will be contacted.</p>

**2. Please describe how your business will prevent cannabis products from being consumed around or near your business.**

We are hyper aware of consumption on premises and take great care to prevent this. We display signage throughout the building and take an extra step during our check in process. Everyone, recreational and medical, signs a waiver stating that they will not consume on site including around the building. In addition to appropriate signage, we have surveillance with multiple views of the building's surroundings. With careful monitoring of this specific rule, customers will simply not take the risk.

**3. Please describe how your business will prevent and address potential negative impacts to neighborhood livability such as noise, parking, garbage, or loitering from your patrons.**

We intend to be a positive example for our neighborhood including keeping a professional atmosphere both inside and outside the shop. Controlling noise, litter, and parking etiquette will prove this to our neighborhood. Our business creates little to no outside noise that would be considered negative in any way. We monitor parking via surveillance and have no issue discussing etiquette with someone violating common sense. To control the garbage and litter situation, we have placed trash cans and recycling bins to absorb much of what would otherwise be litter. Scheduled sweeps of the premises are also very effective for both litter control and consumption control. We also have a recycling program for our bottles which means cash for the customer and means our containers do not end up on the ground or any other unwanted place.

**4. Please briefly describe your business's process to respond to and resolve complaints and/or concerns from neighboring businesses or residences.**

We have an Open Door Policy with our neighbors to have a comfortable platform to voice concerns and opinions. We handle ALL complaints seriously and begin corrective action as soon as possible. If we have contact information from a complaint, we will seek to follow up for a solution for all. We seek to become an integral part of any neighborhood we are in and want to preserve those relationships.
