Website: amberlightcannabis.com	Facebook Link: N/A			

Primary Business Contact Information		
Contact	First Name Jamie	Last Name Little
Title	Owner	
	Email: amberlightco@gmail.com	

1. Please describe your plan to prevent theft at the licensed premises, including robberies, burglaries, and shoplifting.

There will be a room located at the front of the business for ID checks and security. This room will be considered a lobby. An individual will need to go through a locked door after their ID is checked. The security system in place will notify the monitoring company of any perceived security breaches when armed during non-operational hours. During operational hours, panic buttons will be accessible by all employees along with constant video surveillance. No guest of the business will be left unattended by an employee at any time unless in lobby, which is not a limited access area.

INTERNAL USE ONLY

Application No. MRL 436

2. Please describe your plan to control access to your establishment and ensure that no one under the age of 21 is admitted.

Patrons will have their identification credentials (ID) checked in the lobby upon entry. Only upon verification by an employee that the ID is both valid and that the patron is over the age of 21 will the patron be admitted into the limited access area. Employees will be trained to determine the validity of a piece of identification as deemed acceptable by State law. The 21 and over age restriction will be clearly indicated via signage posted at the door, within the lobby, and within the limited access area.

3. In order to reduce the possibility of underage persons, as established by law, from gaining access to marijuana products sold at the licensed premises, please describe your plan to educate patrons on the risks of marijuana use by minors.

Amberlight aims to establish itself as a responsible vendor in our community. Through means of printed literature, public service announcements, and direct engagement between employee and customer, we will strive to convey that public education on the legal and appropriate way to consume marijuana is a main priority for our business. A major part of responsible consumption comes through restricting access of marijuana items to minors, and imparting that same sense of responsibility in our patrons. We view these steps as imperative for our company.

INTERNAL USE ONLY

Application No. MRL 436

4. Please describe your plan to ensure that marijuana products sold by your business are not consumed irresponsibly in public or in the immediate vicinity of the license premises.

We plan to accomplish this through proper signage on and within our premises, OLCC compliant packaging & exit bags, and employee training specific to this issue. It will be expressed to store patrons that public consumption is an illegal activity.

5. Please describe your plan to avoid potential negative impacts to neighborhood livability such as noise, parking or garbage from your patrons.

Our dispensary will be an inherently quiet business. No excessively loud or boisterous noise or music will emit from our establishment. We want to be a welcome addition to our neighborhood and not a nuisance to our neighbors.

Amberlight will comply with all State marijuana packaging laws. Marijuana items sold will be packaged to conceal the product from public view, and must remain that way until the patron has reached a private place, therefore eliminating a concern for excess garbage or waste emitting from the business.

This is a retail shop surrounded by many more businesses in bustling Portland. Parking issues will not arise specifically due to the existence of this, another small business, in an already busy area of commerce.

INTERNAL USE ONLY

Application No. MRL 436

6. Please describe the process to respond to complaints from neighboring businesses and residents regarding the licensed premises.

The owner/operator(s) plan to be very involved in the day-to-day success of the business. They will present themselves as accessible to community concerns. Email, telephone, online portals, or face-to-face interaction are all means by which communication is easily established between Amberlight and the surrounding community.

7. Please include any other pertinent information related to the licensed premises.
