1. Please describe how your business will ensure that no one under the age of 21 is admitted, and how your business will educate patrons on the risks of marijuana use by minors.

Signage, which has been prominently posted both inside and outside the facility, clearly notifies patrons that no persons under 21 will be admitted. In addition, signage and informational posters are displayed throughout the facility, informing customers of, among other things, the dangers of marijuana use to minors and that providing cannabis to minors is a crime.

At the time of entry into the facility, prior to accessing the limited-access areas in which marijuana products are available for purchase, each patron must present valid government issued ID to verify that they are 21 or older. Patrons who do not have ID, or who's ID appears to have been forged, tampered with or otherwise falsified, are not permitted on the premises.

Once a patron's age has been verified, each patron's birth date is entered into the POS system. To prevent the potential for human error, the system is equipped with a fail-safe which will not permit a sales transaction to be processed for a patron under the age of 21.

Employees are trained to OLCC standards for ID verification check.

2. Please describe how your business will prevent cannabis products from being consumed around or near your business.

Slabtown strictly prohibits the on-site consumption of marijuana products. Warning posters, advising patrons that on-site consumption is illegal, are displayed throughout the facility. In addition, signage stating that smoking is prohibited outside and in the parking areas is prominently displayed on the exterior of the building.

To ensure compliance, staff are trained to instruct patrons of the prohibition on on-site consumption and to immediately report any on-site consumption to the authorities. In addition, the parking lot and exterior of the facility are constantly monitored by video surveillance.

Any patron found consuming marijuana products on the premises will be reported to the authorities and permanently banned from the facility.

3. Please describe how your business will prevent and address potential negative impacts to neighborhood livability such as noise, parking, garbage, or loitering from your patrons.

Slabtown has its own designated parking area, which is under twenty-four hour video surveillance. Any disruptive or negative activity is immediately reported to the authorities.

Hours of operation are limited to comply with city policy.

In addition to regular garbage and recycling services, our staff are trained to ensure that the exterior of the facility, including the parking area, are kept garbage and debris-free at all times. All exterior garbage cans are locked to prevent tampering.

Carbon scrubbers are installed throughout the facility to limit any potential odor impact.

4. Please briefly describe your business's process to respond to and resolve complaints and/or concerns from neighboring businesses or residences.

Since the start of our business operations, we have worked hard to cultivate positive relationships and open lines of communications with our neighbors. We are open to hearing, and addressing, any and all questions or concerns.

In the event that a complaint is received, Slabtown staff are trained to immediately escalate the complaint to management. Management has the authority to act and make any policy or operations changes necessary to address or resolve the issue.

Slabtown will make every effort to ensure that our business continues to operate as a productive and welcome member of the community.
