1. Please describe how your business will ensure that no one under the age of 21 is admitted, and how your business will educate patrons on the risks of marijuana use by minors.

We have a detailed admittance policy which starts with a staff member (receptionist) greeting patrons as they enter our secured lobby. No one is allowed in our premises under the age of 21. All ID's are verified to match the individual holding the ID, the birthday must be of appropriate age, and the valid Identification Card or passport must not be expired.

There is only one entrance to our business and all traffic flows through the lobby.

We're well versed and known for strict policy towards following guidelines of both the OHA and OLCC under both the OHA MMJ program and OLCC recreational marijuana program. All products are packaged and labeled appropriately before our staff releases the product to our patrons.

We have educational posters mandated by the state on display for our customers to view, and for our staff to educate on. We include an educational handout with every purchase to ensure patrons understand the responsibility they hold.

2. Please describe how your business will prevent cannabis products from being consumed around or near your business.

All patrons are educated about proper usage and of the laws of our city, county and state. All cannabis is secured in child-proof packaging. We also ask all patrons to respect the wishes of their surrounding environments, and to help us change the stigma's of the cannabis industry of the past. We'll only be able to do that by showing respect to our communities with responsible usage in appropriate areas.

3. Please describe how your business will prevent and address potential negative impacts to neighborhood livability such as noise, parking, garbage, or loitering from your patrons.

We are active on our community and are known for keeping a respectful, quiet, clean dispensary, here in Multnomah Village. We are available to our neighbors at all times and have a voice in our local community. We've contacted our local neighborhood association and are available to them as well. We look forward to continuing to beautify our surrounding neighborhoods and environments we have impact on, as well as, sharing with our neighbors our philosophy of how to further change the old stigmas of cannabis usage and shine more light on the situation, through education.

4. Please briefly describe your business's process to respond to and resolve complaints and/or concerns from neighboring businesses or residences.

We would take any communication or complaint from our neighbors very seriously. We have become a professional, respected brand/business in our community, and our neighbors love that our focus is on organic cannabis products, while erasing the old stigmas of the past cannabis industry. We're a leader when it comes to delivery of information and quality, clean products. From the past reviews about the business, we wouldn't be shocked to have complaints arise from our sale and delivery of product and information. The way we see it, the more communication with our local community and neighbors, the better. We're a completely organic brand/dispensary, known for exotic and designer boutique cannabis products. We look forward to being an active member of our community moving forward.
