**1. Please describe how your business will ensure that no one under the age of 21 is admitted, and how your business will educate patrons on the risks of marijuana use by minors.**

Our business takes every measure to keep our environment secure. To keep premises secure, a 24 hour alarm service is in place, as well as sufficient security cameras covering both inside and outside the store that are monitored 24 hours a day, seven days a week. The surveillance system can also be monitored inside the store in a room only accessed by the president, vice president, and managers. It has a 30 day back-up capability in place. A distinct sound informs employees any time an exterior door is opened. Each employee wears a panic-button necklace while working, and a phone is kept both in the front office and retail room. Upon closing at night, the exterior doors remain locked until all product and cash is locked in their respective safes, and interior safe-room doors are locked. There are always at least 3 employees on the premises at closing, including at least one male employee. Employees exit the store together after the store is secured and exterior cameras are checked for safety. Only managers, president, and vice president have access to keys that unlock external and internal doors, and alarm codes. Exterior doors contain commercial rated door locks, and interior doors contain key-pad locks. Security lights keep outdoor areas lit up at night. Potential customers are immediately asked to show photo ID upon entering the front lobby area. All employees are trained on how to ensure a person is of legal age, including checking date of birth and checking to make sure other features, such as height and eye color, match. Employees will test the customer on various information shown on th ID such as address or date of birth. Customers are not allowed to enter the retail area until photo ID has been checked and they have been checked into our computer system.

INTERNAL USE ONLY

Application No. MR 2904

**2. Please describe how your business will prevent cannabis products from being consumed around or near your business.**

Signage is posted on the front of the door and the parking area to ensure that customers understand that they are not to consume marijuana products in or on the premises. All customers, whether they are new or regular are constantly reminded of the laws regarding on site and public consumption. We are very strict when it comes to this and we have never had any issues regarding this in the past. Upon sale of marijuana products, all customers are given a flyer provided by the Oregon Health Authority, which illustrates that potential harm to persons not of legal age, including use by pregnant mothers. Employees openly discuss risks of marijuana use by minors with customers

**3. Please describe how your business will prevent and address potential negative impacts to neighborhood livability such as noise, parking, garbage, or loitering from your patrons.**

We monitor the surrounding area with video surveillance to make sure there are no disruptive behaviors occurring that may negatively impact our neighbors and neighboring businesses. If we observe or are informed of disruptive behavior, a manager promptly resolves the situation. Trash receptacles are available in the parking area.

INTERNAL USE ONLY

Application No. MPL 9104

**4. Please briefly describe your business's process to respond to and resolve complaints and/or concerns from neighboring businesses or residences.**

We strive to maintain a positive relationship with our neighbors and surrounding businesses. We acknowledge any concerns from them and take action to prevent any further issues from occurring. We take all complaints and concerns seriously and address each one as they arise. We feel that meeting the concerns of the neighbors and being a part of the community has helped us in the past.
