Website:	BROTHERS-CANNABIS.COM		Facebook Link: <small>Optional</small>	

1. Please describe how your business will ensure that no one under the age of 21 is admitted, and how your business will educate patrons on the risks of marijuana use by minors.

All exterior doors will be locked during non-business hours. During business hours, Brothers has a door person to check ID for underage or fake IDs at all times. All of door check employees will be trained by an employee who has been trained by DPSST person. They will be familiar with searching for fake ID and valid passports. The head door employee will also train new door employees on how to check IDs since they have been trained by DPSST certified person. Every person is check before they can come into the buying room. ID is check once again when the product is being purchased. ID and money is given to the cashier before the product is given to the customers. If a customer does not look like the picture on the ID then the door person calls the manager to get a second opinion. If the second opinion does not go in the favor of the customer we give the ID back and don't let them in. If the ID is someone else and does not match the person or we believe it's a fake ID we will call law enforcement.

With every purchase made at Brothers, we make sure customers receive the marijuana can make kids sick postcards issued. All containers that contain THC products are put into child resistance package and have proper warning labels that meet OLCC standards.

Brothers only accepts valid US Government issued IDs. Any guest or contractors for Brothers doing work on the premises will need to check in and sign in on the guest log. The guest will be accompanied by an employee so there will be minimal chance of theft.

2. Please describe how your business will prevent cannabis products from being consumed around or near your business.

We tell all of our customers not to consume in public or consume while driving. We tell them make sure they get home or go somewhere private like a friend's house. Brothers make sure that they are aware that they can get a DUI while smoking in their car or if they are too intoxicated not to drive because they can still get DUI. We make sure to tell them to have a designated driver if they plan on consuming and traveling in a car. Brothers have a strict policy not to consume on premises. Employees are also off limits to consume on site and we tell our customers no way they can consume at Brothers. Easy for budtenders to tell customer that they can't consume onsite because they themselves can't consume on site. Anyone customers who consume outside of the store will be banished from Brothers and law enforcement will be called. Brothers also has posters on the building telling people they can't consume on the property.

3. Please describe how your business will prevent and address potential negative impacts to neighborhood livability such as noise, parking, garbage, or loitering from your patrons.

Brothers has a door person who checks ID outside of the store. The door check in person is in charge of the outside of the store. Weather the store front needs to be swept or if customers are being noisy and loud, the door person's job is to keep it under control and clean. No Loitering around the store. Door person will spot people who should not be around the license area if they have no business being there. If it gets out of hand they will call a manager. If we can't keep it under control we will call law enforcement. Customers will have to park on the street. Brothers pre-package the products so it's very fast for a customer to walk in and out of the retail store at a very efficient speed.

4. Please briefly describe your business's process to respond to and resolve complaints and/or concerns from neighboring businesses or residences.

If complaints are made, the complaint will go directly to a manager. Managers will take any necessary actions to mitigate the problem. If it's too serious for a manager to dissolve the problem the manager will contact the PRF and do what is needed to dissolve the problem. To prevent problems like odor, Brothers has carbon filters to filter out the plant smell. The carbon filter will be put in the packaging room. Packaging room is where all the smell of marijuana will be the most potent. No complaints so far, Brothers will do as much prevention to not get complaints. Whatever due diligence Brothers can do we will. Brothers take any neighborhood or business neighbors complaint seriously and effectively.
