3. Please describe how your business will prevent and address potential negative impacts to neighborhood livability such as noise, parking, garbage, or loitering from your patrons.

The licensed premises has been open for over 4 year. We have not received any complaints from our neighborhood that we are aware of for noise, parking, garbage, or loitering from patrons. Since it is illegal to consume marijuana products from the licensed premises there is no garbage issues. If there were any issues due to our patrons we would address them internally. Complaints would be taken seriously. We would log them into a file describing the complaint in detail. We would then describe the steps we took to resolve the issue. We have procedures in place that managers will follow if there are any complaints in order to them resolved.

4. Please briefly describe your business's process to respond to and resolve complaints and/or concerns from neighboring businesses or residences.

Complaints are taken very seriously whether it is from a person or another business. Our managers are very proactive in any complaint whether they agree or disagree with the allegations. Managers will take statement from the person or business that is filing the complaint. They will get the persons contact information that will include the person's name, phone number, and email address along with the complaint. They will then review the complaint in a timely manner with the lead of operations Darren Quardt. An email will be sent to the person that is the contact for the complaint with a step by step resolution for the issue. Upon the agreement between the two parties the issue can be resolved. The complaint will be filed for future use. Our goal is always to be a five star licensed facility when it comes to our neighborhood and to go above and beyond to make sure we are viewed that way.
