Phone Number:	503-253-4283		Email: Aurnyn@bamadesign.com	
Website:	Facebook link: <small>Optional</small>			

<p>1. Please describe how your business will ensure that no one under the age of 21 is admitted, and how your business will educate patrons on the risks of marijuana use by minors.</p>
<p>a. Each establishment is staffed with age-verified employees who serve customers in different capacities. At any given time, no less than one employee is in charge of checking IDs of all visitors as they enter to ensure they are 21 or older.</p> <p>b. Typically, each storefront will have one entry for potential customers where the IDs will be checked. As a further deterrent, there will be ample signage outside the entrance and inside to clarify that no persons under 21 will be admitted. OLCC compliant signage such as "No Minors Permitted Anywhere on the Premises" will be posted.</p> <p>c. Employees will be trained to observe and challenge anyone who appears to be below the required age, although given the strict procedures required for entry, there is not much likelihood that there will be such situations.</p>

2. Please describe how your business will prevent cannabis products from being consumed around or near your business.

- a. This can mostly only be addressed by proper signage and warnings posted in and around the licensed premises, which we will do.
- b. OLCC mandatory signage such as "No On-Site Consumption" and "Marijuana and Marijuana-Infused Products May Not Be Consumed In Public" will be posted as required.
- c. Further employees will be trained to observe such activity via our perimeter video monitoring systems and to notify anyone consuming product on our property to cease and desist.
- d. Egregious or repeated instances of such consumption will be reported to the authorities and we may ban repeat offenders from our premises.

3. Please describe how your business will prevent and address potential negative impacts to neighborhood livability such as noise, parking, garbage, or loitering from your patrons.

- a. Our general approach to ensuring that such impacts do not occur in the area involves maintaining clean, orderly premises inside and out and dissuade any loitering by people in front or around our stores.
- b. Once again, appropriate signage will be posted and the exterior, including parking lots and other areas surrounding area will be video monitored.
- c. Our facilities typically have their own parking area so that street parking impact is minimized. In any event, most of our customers stop for relatively short periods, in most cases under 10 minutes.
- d. Egregious or repeated disruptive or negative behavior will be reported to the authorities.

4. Please briefly describe your business's process to respond to and resolve complaints and/or concerns from neighboring businesses or residences.

a. While we anticipate very little by way of complaints (we have operated 4 locations, some over a year, without any complaints from neighbors) we will be receptive to any feedback we may receive from neighbors.

b. We will train and instruct employees, particularly the ones who will be first to interact with visitors, to transfer such complaints to management immediately.

c. Once received, management will meet with neighbors who have issues to understand and resolve them as constructively and expeditiously as possible.

d. We pride ourselves for being a responsible and valuable business in the community we are a part of, and will continue to be so.
