We will champion diversity and equity by ending disparities in the workplace and strengthening community outreach, public engagement, and access for underrepresented groups.

We will address challenging public health and social issues facing each neighborhood alongside community collaborators because we are better together.

We will work to be the most sustainable fire department in the U.S. by investing in renewable energy, recycling, and reducing our carbon footprint.

We will take measures to make Portland the safest city of our size in the U.S. by increasing response reliability, decreasing mortality, and implementing fire prevention innovations.

Joining forces with public and private partners to eliminate all traffic-related deaths and make Vision Zero a reality.

Evaluating the health and social issues in each neighborhood and proactively providing the appropriate resources for a healthier community.

Aggressively working toward eliminating fire deaths in the City of Portland through fire prevention, education, and rapid response.

Eliminating work-related deaths and incident injuries through proactive training, programs, and state-of-readiness equipment.

Evaluating the health and social issues in each neighborhood and proactively providing the appropriate resources for a healthier community.
