

RENTERS' ADVOCACY

Volunteer Opportunity

Renters in Oregon are really having a tough time right now with rising rents, substandard housing conditions, housing foreclosures, unfair laws, and unfair landlords. **Everyone deserves a safe, stable and decent place to call home.** The Community Alliance of Tenants (CAT), Oregon's only grassroots renters' rights organization, runs a hotline which educates and empowers renters to solve their rental problems. We are inviting you to come and volunteer on the renters' rights hotline!

CAT will be giving a Renters' Rights Hotline training in early February. This will be a lively and informative training. Learn how to advocate for yourself and others! The hotline is staffed by volunteers who are also renters like **you!**

If you like helping people, are interested in social justice, or want to develop new skills, this is a great opportunity!

Want to come see the Hotline in action before the February training? Email or call to come shadow a shift.
