CITIZEN REVIEW COMMITTEE RESPONSE TO COVID-19

In light of the rapidly changing circumstances we're all dealing with in response to the COVID-19 pandemic, the [Citizen Review Committee](#) (CRC) will be postponing business until further notice. These are stressful times for many in our community, and our priority is making sure everyone who engages with the work of the CRC has the time and space to adjust to a new normal before continuing official business.

Currently pending on our agenda is a Conference Hearing with Portland Police Chief Jami Resch scheduled for March 26th, and one appeal case scheduled for April 1st. We will work to get those rescheduled to a later date and will communicate those new dates in the coming weeks. We are doing our best to follow the State and City [guidelines](#) for advisory body meetings, and if the situation requires it, we will be prepared to host remote meetings to protect the health safety of the community.
