

Digital Inclusion Network

Digital Inclusion Network

Wednesday, January 22, 2020

2:30-4:00pm

Portland City Hall, Rose Room, 3rd Floor

1221 SW 4th Ave., Portland

Call-in number: 888-363-4734, Participant code 1285443

AGENDA

- **Welcome**

- **Have YourVo!ce Heard!**

We are excited to provide time and space for the DIN to help shape our local roadmap for an accessible and inclusive communications technology future. As part of the MHCRC's Community Communications Technology Needs Study, Tom Robinson, CBG Communications, will lead us in a discussion focused on the following key questions:

- Does your organization strategically use technology to help increase your organization's internal efficiency and external effectiveness?
- What are some of the challenges in supporting digitally disconnected constituents?
- How can communications technology help address employment barriers for underserved communities?
- Are there particular new or emerging technologies that are most exciting or most promising?

As trusted partners in the community working with the digitally disconnected, DIN participants are uniquely positioned to help us understand how your organizations are using communications technology and to share what you think are the biggest barriers to digital adoption and/or greatest digital opportunities for your constituents.

Please note that we've extended the DIN meeting to 4:00pm to accommodate what we hope will be a very dynamic discussion. Please join us! (Smart Park parking vouchers or Trimet passes will be available)

- **Upcoming Events**

- 2020 NTEN conference, March 24-26, Baltimore, MD
