Report of Independent Auditors on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The City Council
City of Portland, Oregon

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Portland, Oregon (the City) as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated November 15, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report of Independent Auditors on Compliance for Each Major Federal Program; Report on Internal Control Over Compliance; and Report on the Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

The City Council
City of Portland, Oregon

Report on Compliance for Each Major Federal Program

We have audited the City of Portland, Oregon's (the City) compliance with the types of compliance requirements described in the OMB Compliance Supplement that could have a direct and material effect on each of the City's major federal programs for the year ended June 30, 2017. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each Major Federal Program

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

Report on Internal Control Over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the City's basic financial statements. We issued our report thereon dated November 1, 2017, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

City of Portland, Oregon
Notes to Schedule of Expenditures of Federal Awards
Year Ended June 30, 2017

Note 1 – Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the City of Portland, Oregon (the City) under programs of the federal government for the year ended June 30, 2017. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the City, it is not intended to and does not present the financial position, changes in net position or cash flows of the City.

Note 2 – Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule or Notes to the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Pass-through entity identifying numbers are presented where applicable.

Note 3 – Federal Loan Programs

The federal loans under the federal program listed subsequently are administered directly by the City and balances and transactions relating to this program are included in the City's basic financial statements. Loans outstanding at the beginning of the year and loans made during the year are included in the federal expenditures presented in the Schedule. The balance of loans outstanding at June 30, 2017 consists of:

<u>CFDA Number</u>	<u>Program Name</u>	<u>Outstanding Balance at June 30, 2017</u>
14.239	U.S. Department of Housing and Urban Development HOME Investment Partnerships Program	\$ 59,996,706

Note 4 – Election of De Minimis Indirect Rate

During the current year end, June 30, 2017, the City did not elect to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

City of Portland, Oregon
Notes to Schedule of Expenditures of Federal Awards
Year Ended June 30, 2017

Note 5 – Homeland Security Grant Program

The Homeland Security Grant Program, CFDA 97.067, is comprised of several component programs that have been merged or consolidated into the Homeland Security Grant Program, including but not limited to the Urban Areas Security Initiative Program (UASI). According to the OMB Compliance Supplement, this program was previously reported under CFDA 97.008. Program guidance for this program dictates that when completing the Schedule of Expenditures of Federal Awards (SEFA), recipients should record their expenditures using the CFDA number shown on the legal award document for the period in which the funds were awarded. Subawards issued by the primary grantee are legally binding agreements, and, therefore, CFDA numbers cited by the grantee in the subgrant award must be used by the subgrantee as the CFDA reference in the SEFA. As a result, the City has presented expenditures of federal awards for the UASI program under CFDA 97.008, as shown on the legal award document for the program.

The total expenditures of federal awards for this program has been reported together in the SEFA under the Homeland Security Grant Program where it has been merged in to this program along with the expenditures of federal awards listed under CFDA 97.067 during the current year.

Note 6 – Economic Adjustment Assistance Program

The City has an EDA revolving loan fund (RLF) under the Economic Adjustment Assistance Program, CFDA 11.307. According to the OMB Compliance Supplement, for purposes of completing the SEFA, each EDA RLF (CFDA 11.307) should be shown as a separate line item calculated as follows:

1. Balance of RLF loans outstanding at the end of the recipient's fiscal year, *plus*
2. Cash and investment balance in the RLF at the end of the recipient's fiscal year, *plus*
3. Administrative expenses paid out of RLF income during the recipient's fiscal year, *plus*
4. The unpaid principal of all loans written off during the recipient's fiscal year; *and then multiply this sum (1+2+3+4) by*
5. The Federal share of the RLF. The Federal share is defined as the Federal participation rate (or the Federal grant rate) as specified in the grant award.

City of Portland, Oregon
Notes to Schedule of Expenditures of Federal Awards
Year Ended June 30, 2017

Note 6 – Economic Adjustment Assistance Program (continued)

The figures used in this calculation to arrive at the RLF amount to be shown on the SEFA are as of June 30, 2017, and the calculation is as follows:

<u>CFDA Number</u>	<u>Program Name</u>	<u>Outstanding Balance at June 30, 2017</u>
11.307	Department of Commerce Economic Adjustment Assistance Program - EDA revolving Loan Fund 2017	\$ 2,423,622
	<u>Revolving Loan Fund Calculation</u>	
	Loans Receivable	1,180,800
	Cash	1,234,583
	Restricted Cash	-
	Administrative Costs	57,701
	Loan Write-Offs - Unpaid Principal	-
		<u>2,473,084</u>
	Federal Participation Rate	<u>98%</u>
	Federal Share of Revolving Loan Fund	<u><u>\$ 2,423,622</u></u>

City of Portland, Oregon
