Noise Review Board

Proposed Pile Driver Noise Code Changes

Next Hearing Date Wednesday, April 1st, 2015

6:00 PM

1120 SW Fifth Avenue

The Portland Building, Room B (2nd floor)

The Board is hoping to finalize their proposed code language regarding pile driver noise at their April 1st, 2015 hearing. The April 1st meeting will be an open public meeting. The Board will take public testimony and listen to any comments before they take any final action on the pile driver code project.

Any final language the Board approves will be moved forward to a future Portland City Council meeting for consideration and a vote from Council. At that time, it would be incorporated into City Code.

For draft code language changes and helpful background information on this project from the Chair of the City of Portland's Noise Review Board, David Sweet, please go to our new page, Pile Driving Noise Study at <http://www.portlandoregon.gov/oni/67168>

Questions about the meeting can be directed to the Noise Control Office at (503) 823-7350. The public is invited to attend the April 1st meeting and to give testimony in support or opposition to code language drafts. Written testimony must include your full name and address and can also be submitted via e-mail to noise@portlandoregon.gov or by fax to 503-823-3050, Attn: Noise Board. It must be received by 4 PM on April 1st if you wish administrative staff in the Office of Neighborhood Involvement to have adequate time to copy it and supply it to the Board for consideration at the meeting that night.

For language or disability accommodations, contact the Noise Control Office at least 2 business days prior to the event.
