1. Please describe how your business will ensure that no one under the age of 21 is admitted, and how your business will educate patrons on the risks of marijuana use by minors.

We have many policies in place to ensure that no person under 21 will be permitted to enter. On the front door we have clear signage that no person under 21 is allowed to enter the facility. Silver Stem employess are trained to rigorously check identification cards for birthdates and expiration dates. Receptionists have an updated identification card booklet to ensure that fake identification cards are not being used. No customer is allowed to enter the dispensing room until their identification is verified. Once an identification card is verified, the customer is buzzed in via an electric strike lock. Identification cards are also verified a second time before the transaction is finalized.

All employees and management are trained to ensure that a customer is not buying products for an underage person outside and what to look for. If we feel that this may be happening we will refuse to serve the customer in question.

2. Please describe how your business will prevent cannabis products from being consumed around or near your business.

All employees are trained to ensure the security of our property. If consumption in the vicinity of the property is suspected or seen the person will be directed to leave. Law enforcement will be utilized if the party does not comply. In addition to this, we have signage on both exit doors that explicitly communicated that consumption of marijuana is intended for the use in the privacy of your own home. We ask that all customers leaving our location are respectful of the neighborhood. Consumption of our products is not allowed within 1000 feet of our facility. In addition to constant monitoring from our team, "no trespassing" and "no loitering" signs have been placed in the parking area to ensure there is no consumption in vehicles or in the parking lot. "Smoke Free Oregon" signs are also positioned on the front of the building.

3. Please describe how your business will prevent and address potential negative impacts to neighborhood livability such as noise, parking, garbage, or loitering from your patrons.

Silver Stem does not allow consumption of our products within 1000 feet of the facility. Also, we are constantly monitoring trespassing, purchasing for minors, consumption on site and noise from vehicles in our parking lot. SOP's are in place to make sure that our employees are checking the parking lot hourly and cleaning it if needed. Neighborhood involvement is something that is intrinsic to our businesses success and paramount to our longevity. Communication with local residents and local business owners on all issues, positive or negative, is necessary to the success of our business. Our facility has been designed to fit in with the neighborhood. We have no interest in being a boisterous marijuana business. Community involvement is something that is extremely important. If there are any complaints from the neighborhood, I will do everything in my power to communicate and solve the issue.

In addition to cleaning the area around the store and parking areas, we are also involved in neighborhood cleanup programs.

4. Please briefly describe your business's process to respond to and resolve complaints and/or concerns from neighboring businesses or residences.

Communication is the key. We embrace communication and have created an environment that reflects this. Since opening in May, we have had many positive interactions with the local businesses and residents. Feedback for our business has been 100% positive. That said, I will do whatever it takes to better the neighborhood to ensure they see us in a positive light. In the event of an issue I want the neighborhood to know that we will solve it and willing to meet and discuss it. The Hollywood neighborhood is extremely important to me and I will do whatever it takes to keep the communities view of us positive and leave a positive imprint on the area.
