Primary Business Contact Information		
Contact	First Name Rachel	Last Name Jones
Title	PRF/MGR/Owner	Email: rjones436@comcast.net

1. Please describe your plan to prevent theft at the licensed premises, including robberies, burglaries, and shoplifting.

To prevent theft there are cameras, motion sensors, glass break sensors, and panic buttons for employees throughout our dispensary. Marijuana products are stored in a secure and locked area within our premises and more importantly, the product is out of reach from customers. After hours when our dispensary closes, we keep all products in safes that are bolted to the ground behind locked doors; these doors can only be opened by the owners of Club Sky High. In our restricted access area we have several TV's that display all camera systems throughout the dispensary, which are monitored during business hours.

2. Please describe your plan to control access to your establishment and ensure that no one under the age of 21 is admitted.

To control access for people under 21 we have a POS system in place. In addition we use the Token Works Inc. ID scanner system. These systems scan Identification Cards for every person entering our business, whether or not they are a medical marijuana patient or here for recreational use. After the first two protocols we have a third in place by our budtenders, before a customer makes a purchase there ID card has to be checked again by budtenders. When the receptionist greets a patient through the front lobby window, we have locked doors that are controlled by the front receptionist. After the receptionist has verified a customers ID and information (for medical patients), the door allowing access to medical and recreation areas will be buzzed open allowing access for that individual. Anyone under 21 years old, or has a expired ID, or does not have a valid photo ID with a birth date is denied access to our dispensary. Our five acceptable ID's are: State, Federal, Passport, Military, and Indian Reservation Federal identification cards.

3. In order to reduce the possibility of underage persons, as established by law, from gaining access to marijuana products sold at the licensed premises, please describe your plan to educate patrons on the risks of marijuana use by minors.

Our plan to educate customers about the dangers of marijuana for minors includes the OHA required marijuana information card which is given to every customer who makes a purchase. Furthermore, we have well educated budtenders who advise customers to keep the substance away from minors and they are available to answer any question regarding this topic. More importantly, all of our containers that we give customers to hold their substances are child proof. Lastly, all of our products have warning labels on them to keep away from minors, which also include the full content of the product from lab testing.

4. Please describe your plan to ensure that marijuana products sold by your business are not consumed irresponsibly in public or in the immediate vicinity of the license premises.

Our plan to ensure marijuana products sold by our establishment are not consumed in public or near the dispensary includes our security camera system around the premises to validate that no one is publicly consuming. We are located within the businesses of downtown St. Johns, which is a heavily traveled area; this helps to eliminate public consumption.

5. Please describe your plan to avoid potential negative impacts to neighborhood livability such as noise, parking or garbage from your patrons.

To avoid potentially negative impacts on the neighborhood from our customers include: cleaning the premises daily, having several garbages and recyclables within our establishments and surrounding our premises. Also, belonging to the St. Johns boosters club, which is a direct community involvement helps us understand concerns of other fellow business owners and neighbors.

6. Please describe the process to respond to complaints from neighboring businesses and residents regarding the licensed premises.

We have been in our current location and operating for over two years and have yet to receive a complaint. Most of our complaints come from customers who report being harassed by local homeless people. In the case if we do receive a complaint we will approach the situation and resolve it by reaching out to the complainant and addressing their concerns and working towards a positive solution.

Being new within this industry requires extreme attention from the business owners to make sure that all rules and regulations are being followed by within city and state regulations.

7. Please include any other pertinent information related to the licensed premises.

Since being in business there has been many incidences which have been captured by our camera system. Being involved within our community and neighborhood, Portland Public Police have acquire multiple zip drives containing illegal activity that has occur around our area. They have been able to use our surveillance footage to answer a lot of questions and end crimes that have occurred.
