**4. Please describe your plan to ensure that marijuana products sold by your business are not consumed irresponsibly in public or in the immediate vicinity of the license premises.**

We give all of our patients the information required and ask the to read the law We monitor our parking lot with cameras and a walk thru.

**5. Please describe your plan to avoid potential negative impacts to neighborhood livability such as noise, parking or garbage from your patrons.**

We have no impact on the neighborhood actually we are joining the association as they have come and asked us to join. Since our shop is on McLoughlin our customers do not head up into the neighborhood so we have little to no noise in pack. We have plenty of parking and our average visit is less than 5 min. Every morning we clean our parking lot when we open, We pick all garbage, none of the garbage originated from us but rather came off McLaughlin and the illegal homeless camp odot and city do nothing about under the bridges. We pick up their garbage too. Also have fixed the odot fence that homeless keep tearing down many times at our own expense. Last our property line extends over the creek to the apartment line we have allowed the elderly members to create a community vegetable garden and have watch them grow it. also left accessible for walking and in general just enjoying the creek .
