1. Please describe your plan to prevent theft at the licensed premises, including robberies, burglaries, and shoplifting.

Oregon Grown Gift shop is monitored 24/7 with video surveillance cameras capable of capturing images in any light condition throughout the premises. In the event of a robbery, employees are trained to use one of the three panic buttons on site, which alerts the Portland Police Department for assistance.

In the event of a burglary, our security system is equipped with motion detection sensors. Once the sensors detect movement, our security monitoring company will alert the owner or authorized employee for the next course of action.

To limit shoplifting opportunities, all marijuana products in the retail area are behind the sales counter with the exception of product samples. Three-gram product samples are accessible to customers and monitored by employees. Our lobby employee regulates the amount of customers allowed into the retail area to ensure no more than four customers are in the retail area at one time.

Oregon Grown Gift Shop keeps a limited amount of marijuana products behind the sales counter in the retail area. Product remains in employees control until purchase has been completed. The majority of our inventory will remain secure in the weigh room, which is clearly marked a Restricted Access Area - Authorized Personnel Only, in OMMP compliant safes weighing over 750lbs.

Oregon Grown Gift Shop requires inventory adjustments to be completed by management. Management also completes two random compliance audits each month to ensure security policies adherence and verify inventory counts and controls.
