**1. Please describe how your business will ensure that no one under the age of 21 is admitted, and how your business will educate patrons on the risks of marijuana use by minors.**

All customers enter the store through a lobby that is separated from the retail sales area by a door that is continuously locked from the exterior. Customers are required to go to the reception window with their valid, OLCC approved, government-issued photo ID to verify they are 21 years of age or older before they are allowed to enter the retail sales area. The customers are then allowed entry into the sales area. After selecting their products, the customers' IDs are verified again at the time of sale. This ensures access to our retail area is restricted to persons 21 years of age or older.

Each vendor that comes through our doors also has their ID's checked to verify they are 21 years of age or older before they gain access to the store. We log each vendor in our vendor log, which tracks who came, when, their DOB, the number from their government-issued ID, time of entry, and time of exit.

No one under the age of 21 shall be permitted to work at our retail store and we shall verify the individual has a valid marijuana worker permit prior to hiring them to work at our store. Management verifies the validity of any documentation or IDs provided by employees before they begin working.

We will advise our customers that it is important to keep their marijuana products in the child-resistant containers in which they leave the store and to ensure they keep their marijuana items in a safe, locked area to keep the products out of reach of children. We will also advise our customers that marijuana is for adults and that use by minors could potentially harm their cognitive development or lead to other personal or social problems.

INTERNAL USE ONLY

Application No. MPL 270-18

**2. Please describe how your business will prevent cannabis products from being consumed around or near your business.**

We monitor the premises with surveillance cameras to ensure that cannabis products are not consumed by patrons or people around or near our business. If we identify individuals consuming cannabis products around or near our business, the manager on duty shall notify the individual that they are violating Oregon State law and must leave the premises immediately or we will contact law enforcement. We require that all products leaving our store are in child-resistant containers in accordance with OLCC regulations.

**3. Please describe how your business will prevent and address potential negative impacts to neighborhood livability such as noise, parking, garbage, or loitering from your patrons.**

Any patrons or individuals near or around our business who are creating noise disturbances shall be asked to leave the area by the manager on duty or we will contact law enforcement to remove them. We provide on-site parking for our patrons and we advise any individuals to move their vehicles if they cause a disturbance or are parked illegally. The exterior of our business is cleaned by staff as needed and at least once daily to remove garbage or debris on, near, or around our business. If individuals repeatedly cause any of the disturbances listed above, we will submit a no trespass order with law enforcement as appropriate to allow the immediate removal of the individuals should they return or continue to cause disturbances.

**INTERNAL USE ONLY**

Application No. MRL 770-18

**4. Please briefly describe your business's process to respond to and resolve complaints and/or concerns from neighboring businesses or residences.**

Any complaints from neighboring businesses or residences are directed to the manager on duty, who will evaluate the circumstances and take appropriate action. The managers on duty provide a weekly recap to senior management of any complaints or concerns that have arisen and if trends are identified, then changes to our operations will result. Senior management will communicate directly with the neighboring businesses or residences to inform them of the actions taken to resolve the complaint or concern. If the situation warrants further action, law enforcement will be contacted to help resolve the issue.
