1. Please describe your plan to prevent theft at the licensed premises, including robberies, burglaries, and shoplifting.

Our store has secured entrances and exits, and security bars, and full camera coverage; the dispensary meets all state (OHA) security requirements. Areas where money or marijuana products are kept have additional security doors, safes and other security features. Recordings from security cameras are available both on-site and off-site for later review. The store has a 24-hour monitored alarm system, with panic buttons and motion sensing.

Employees will be trained to handle robbery situations so that nobody is put in harm's way and to avoid confrontations. The security system and cameras will record any robbery and be turned over immediately to the police. Persons will not be allowed to enter the store wearing large hats or hoods that conceal their faces from our cameras. This will be done at the ID check station at the entrance to the store - there is only one entrance door, which should deter robberies and other theft.

Marijuana and other products are in locked display cases during the day, and secured in safes at night. With constant camera footage as well, shoplifting would be extremely difficult at our dispensary.

INTERNAL USE ONLY
