Title	Co-Owner/PRD Email: jschwimm@gmail.com	

1. Please describe your plan to prevent theft at the licensed premises, including robberies, burglaries, and shoplifting.

Our facility is currently monitored by both a video system and alarm system. The video system has connected cameras surveilling all public areas and stores all video feeds for 30 days, in a locked cabinet with a secured room. This video system will be upgraded, pursuant to recently released OHA rules, to provide 24 hour continuous recording for at least 45 days within the coming weeks. The vide system is currently configured to notify PRD Matthew Schwimmer in the event of any failure. The alarm system monitors our facility when it is closed and requires a PIN upon entry or the police are immediately notified. In the even the alarm is triggered, PRD Matthew Schwimmer will be notified. Furthermore, we have 2 active panic buttons near the point of sale, should the need to use them arise. The entry door to our facility is always locked or guarded when opened, and entry is only permitted once proper, valid identification has been presented and an employee permits access by pressing an unlocking button. Inside the facility, the sales floor is separated from all product by a latching door. All product on the sales floor is held within locking cabinets and locking drawers.

INTERNAL USE ONLY

Application No. MRL241
