Title	Owner/PRF	Email: Bewonderfulwellness@gmail.com

**1. Please describe your plan to prevent theft at the licensed premises, including robberies, burglaries, and shoplifting.**

I had a 16 channel video surveillance sytem professionally installed on the liscenced premisis. The cameras cover all of the entry ways inside and outside of the building. All rooms and safes have cameras pointing at them in multiple directions to insure safety and monitoring. The cameras will help detour shoplifting, robberies, buglaries and potential break ins to the premisis. The footage from the cameras is recorded to a DVR that has a back up battery incase the electricity has been cut off. This footage is easily accesed for review incase there has been a problem. I also had an alarm system professionally installed to the building by Mike Dean from "Allied Securty." There is a keypad with a police response panic button as well as two remote panic buttons that will notify police dispatch in case of an emergency. There are also contacts on all doors and windows, motion detectors in each room, and glass break detection sensors through out the building. If the alarm is triggered by any of these devices it will automatically call the monitoring company that will notify the police immediately if the premisis has been comprimised by any perpetrators or potential threat.

INTERNAL USE ONLY

Application No. **WRL285**
