1. Please describe your plan to prevent theft at the licensed premises, including robberies, burglaries, and shoplifting.

Stumptown Cannabis - Lents will meet or exceeds all OLCC security and safety rules. To prevent theft including robberies, burglaries:

- Our front and back doors feature commercial-grade locks. The front door remains locked outside of business hours. The back doors and roll-up door will remain locked at all times.
- We will have signs "Restricted Area - Authorized Personnel Only" and "Restricted Access Area - No Minors Allowed" Wherever cannabis is transferred to or from the facility, respectively.
- The door from the waiting area to the showroom remains locked, except when a patron is being permitted entry after having their ID inspected.
- We will have a substantial video surveillance system featuring networked cameras, video monitors, battery backup, failure notification and digital archiving that exceeds OLCC regulation standards.
- We will have an alarm system that includes (1) a touchpad alarm control panel; (2) numerous alarm sensors; (3) motion detectors; (4) Glass break sensors; (5) numerous panic buttons that discretely notifies the authorities of an emergency event.
- The facility will be monitored 24/7 by a monitoring center, which notifies us by email and telephone of any alarm event or interruption. The monitoring center dispatches police and/or fire if necessary.
- We have numerous OHA/OLCC compliant safes where we can store inventory and cash.
- We have tight inventory tracking systems, audits and cash controls that further assist us in detecting potential theft/loss of product.
- Our Staff is trained to keep a watchful eye on customers and to report any suspicious activity to management along with properly responding to a robbery situation.

INTERNAL USE ONLY
