Website: NA		Facebook Link: NA		

Primary Business Contact Information		
Contact	First Name Lucas	Last Name Bennett
Title	Member/Manager	Email: luc.bennett@gmail.com

1. Please describe your plan to prevent theft at the licensed premises, including robberies, burglaries, and shoplifting.

The dispensary will abide by all regulations laid out by the OLCC in OAR 845-025-1400

Alarm System: The dispensary will have sensors on every door and window into the building, as well as motion sensors in every room. A licensed security company will install the security system, and the system will be monitored 24 hrs a day by an offsite security company that is notified every time an alarm is triggered. Panic buttons will also be installed in areas easily accessed by employees.

Surveillance System: Upon entering the dispensary every customer will see a sign alerting them that they are under video surveillance. There will be security cameras in every room, at least two per room, catching every angle of the room, and insuring that there are no blind spots. The surveillance footage will be stored off site for no less than 30 days.

Training: All employees will be trained how to handle any attempted theft, including training with the panic buttons and calling 911.

Inventory Storage: During hours of operation all inventory not in the display cases will be stored in a secure safe, bolted to the floor in the office. When the store is closed, all cash and inventory will be secured in the safe.

Locks: All exterior and interior doors will be equipped with commercial grade locks. Any window will also be equipped with a commercial grade lock. Only the owners and approved managers will have access to keys to these locks.

Layout: All customers must first be checked in before entering the showroom. No marijuana products are available to any customer until the time of sale.

INTERNAL USE ONLY

Application No. MRL 576

OHA Reg. No. / OLCC Lic. No. _____

2. Please describe your plan to control access to your establishment and ensure that no one under the age of 21 is admitted.

Upon entering the building, all customers must check in. The staff responsible for checking customers in will be trained in examining IDs to ensure that the ID is valid, and that the age of the person checking in is over 21. Once that is confirmed the staff will enter the customer's information into our POS system, which will again notify the staff if birthdate entered is less than 21 years old.

On the exterior door of the building there will be a sign that reads "No Person under the age of 21 permitted on the premises"

Before purchasing any Marijuana products, the customer's ID will again be checked by our budtenders for authenticity and proper age.

3. In order to reduce the possibility of underage persons, as established by law, from gaining access to marijuana products sold at the licensed premises, please describe your plan to educate patrons on the risks of marijuana use by minors.

At the sales counter there will be two large posters that educate the customers on the dangers of underage persons gaining access to marijuana. The posters read:

"DON'T PASS IT ON. You can keep your child safe and healthy by not using marijuana while you are pregnant or breastfeeding"

"KEEP IT OUT OF REACH. Marijuana can make children very sick. You can keep the kids in your life safe and healthy by storing all marijuana in a locked area that children cannot see or reach. If your child eats or drinks marijuana products, call the Poison Center Hotline as soon as possible: 1-800-222-1222"

Budtenders will also have informational cards, that will be included with every purchase, warning about the dangers of children ingesting marijuana.

All products that leave the store will be in opaque, childproof packing.

6. Please describe the process to respond to complaints from neighboring businesses and residents regarding the licensed premises.

We highly value our relationship with the neighborhood, and our closest neighboring homes and businesses. We believe constant open lines of communication are most important, and we will encourage our neighbors to come directly to us with any comments or concerns about our business.

Any complaints that we receive would be acted on immediately, and a solution would be found that rectifies the problem and alleviates any concerns that the neighbor had.

We plan to pay close attention to every detail of the way our business is run, and how it will affect the neighborhood, and proactively seek to make our relationship with our neighbors as harmonious as possible.

7. Please include any other pertinent information related to the licensed premises.

We plan to go above and beyond to create a safe and enjoyable experience for all of our customers. Furthermore, we plan to make our dispensary as aesthetically pleasing from the outside as possible, as to add the the overall look fo the neighborhood.
