- B. From 6:00 p.m. until 9:30 p.m., the contractor will be required to use 'smart alarm' back up beepers, instead of a standard reversal alarm, for all equipment activity. After 9:30 p.m. and until 7 a.m. the following morning, back up alarms will be disconnected and spotters will be used to safely back up vehicles.
- C. The Applicant shall work to utilize a direct connection to power whenever possible. H. The noise variance will be reviewed upon receipt of complaints. If complaints are filed, the Noise Control Officer may modify the variance, as needed, to resolve community noise disturbances.

I. The Applicant will notify the Noise Control Officer by the next morning if the variance was needed to work outside the normally permitted construction hours. The Applicant will keep a running tally of varianced days used. This log shall be made available to the Noise Control Office upon request.

To the Applicant:

1. Carry this document with you during the activity. This is not a permit to make more noise than is minimally necessary for your needs.
2. Violation of the conditions of this variance constitutes grounds for revocation of the variance, and denial of future applications, and may also result in the issuance of citation(s) for violations of City Code.
3. **If a Police or Noise Control Officer should appear, his/her instructions will supersede this variance and take precedence.**
