

## Community and City Response to Hate

### Joint Statement

***Portland United Against Hate*** is a community initiated partnership of Community Based Organizations, Neighborhood Associations, concerned communities and the City. Together, we are building a rapid response system that combines reporting and tracking of hateful acts and providing the support and protection our communities need in this uncertain era. We seek to combine our resources, assets and relationships to create an inclusive city that protects, embraces, and celebrates its diverse communities.

We hear the outcry of our communities. In recent months, many community organizations report increasing incidents of hate crimes and intimidation, including bullying and violence stemming from racism, xenophobia, religious bigotry, islamophobia, ableism, homophobia, transphobia, stigma, and misogyny. This affects every area of our lives, including our workplaces, schools, places of worship, healthcare facilities, the marketplace, and more. We reject this hateful behavior.

We are tackling this toxic environment head on. Our partnership is bound by these common values: we oppose a registry of people based on their faith, culture, ethnicity, and documentation status. We know Black Lives Matter. We will continue advocating reform of our police department and building trust between police and communities of color so everybody feels safe in our neighborhoods. We support Portland's evolution as an Inclusive City, regardless of the threats made by the Trump administration.

We have come together. This community initiated partnership is combining forces with the Office of Neighborhood Involvement (ONI), whose charge is to connect and support all Portlanders to work collaboratively with government to build inclusive, safe, and livable neighborhoods and communities. Community organizations look to ONI to collaborate in creating a robust response to the negative forces that undermine our city and community.

Our bold and intentional collaborative efforts are designed to protect communities from hate and proactively, create a strong base of support, provide the tools and resources to combat oppression, prosper economically and thrive collectively.

Everyone and every community deserves a safe, prosperous, and peaceful life, a life free from hate and harassment. We recognize and honor our collective resilience and

our right to nurture our communities from a place of compassion, security, and belonging.

*“With divisiveness and hatred becoming the norm at the national level, and here on the Best Coast, we must find ways to support our neighbors. I sincerely appreciate this statement of community values, being generated by the people, for the people. We believe in dignity and respect for all. That is the Portland way.” Commissioner Amanda Fritz*
