

ONI Notification Policies and Procedures

What is ONI Notification?

ONI Notification is an online subscription service offered by Office of Neighborhood Involvement (ONI). Subscribers receive information via email. The information is also posted to Office of Neighborhood Involvement's website at www.portlandoregon.gov/oni/notification.

Goals

This document and the policies and procedures within are intended to bring ONI Notification in line with the mission statement of Office of Neighborhood Involvement, which is:

Promoting a culture of civic engagement by connecting and supporting all Portlanders working together and with government to build inclusive, safe and livable neighborhoods and communities.

In this spirit, the **ONI Notification goals** are:

To help the people of Portland...

1. get involved in civic life and
2. have a voice in decisions that affect them and their communities.

In the past ONI Notification was used by other City bureaus to inform the public about items unrelated to ONI or its mission. Other bureaus have their own notification systems and ONI Notification should be used to further the mission and goals of Office of Neighborhood Involvement.
