4. Please briefly describe your business's process to respond to and resolve complaints and/or concerns from neighboring businesses or residences.

Company management will introduce themselves and provide their contact information to all adjacent property owners prior to the location opening for business. It is our hope that in doing so we will establish our store as a positive, contributing member to the local business community and creates lines of communication in the unlikely event that any concerns or complaints arise.

Should any concerns or complaints be received, management will first contact the complainant to make sure the issue is fully understood and then implement a plan of action to address the issue or concern. Shortly after the plan has been implemented, management will reach out to the complainant to confirm that the concern or complaint has been satisfactorily addressed.
