Website:			Facebook Link: <small>Optional</small>	

1. Please describe how your business will ensure that no one under the age of 21 is admitted, and how your business will educate patrons on the risks of marijuana use by minors.

Brothers has a door person to check ID at all times. Most of the door person will be DPSST trained so they will be familiar with searching for fake ID and valid passports. The head door employee will also train new door employees on how to check IDs since they are DPSST trained. Every person is check before they can come into the buying room. ID is check once again when the product is being purchased. ID and money is given to the cashier before the product is given to the customers. If a customer does not look like the picture on the ID then the door person calls the manager to get a second opinion. If the second opinion does not go in the favor of the customer we give the ID back and don't let them in. If the ID is someone else and does not match the person or we believe it's a fake ID we will keep it and they can call law enforcement to get it back

Brothers check ID again and write down the birthdate and last two digits of the ID at the time of purchase. If an underage person somehow makes it into the facility Brothers cashier will check ID again before the customer receives the product sold. With every purchase Brothers make sure customers receive the marijuana can make kids sick postcards. All containers that contain THC products are put into child resistance package and have proper warning labels that meet OLCC standards.

2. Please describe how your business will prevent cannabis products from being consumed around or near your business.

Please describe your plan to ensure that marijuana products sold by your business are not consumed irresponsibly in public or in the immediate vicinity of the license premises.

We tell all of our customers not to consume in public or consume while driving. We tell them make sure they get home or go somewhere private like a friend's house. Brothers make sure that they are aware that they can get a DUI while smoking in their car or if they are too intoxicated not to drive because they can still get DUI. We make sure to tell them to have a designated driver if they plan on consuming and traveling in a car. Brothers have a strict policy not to consume on premises. Employees are also off limits to consume on site and we tell our customers no way they can consume at Brothers. Easy for budtenders to tell customer that they can't consume onsite because they themselves can't consume on site. Anyone customers who consume outside of the store will be banished from Brothers.

3. Please describe how your business will prevent and address potential negative impacts to neighborhood livability such as noise, parking, garbage, or loitering from your patrons.

I've been in operations for nearly 7 years now and never had a problem with noise. Brothers have a door person who checks ID outside most of the time. The door check in person is in charge of the outside of the store. Weather the store front needs to be swept or if customers are being erratic and loud, the door person's job is to keep it under control. If it gets too crazy they will call a manager. If we can't keep it under control we will call law enforcement. Parking has not been an issue so far. We have 15minute parking in front of the store and all around the neighborhood has timed parking. Brothers door person also knows areas where customers can park without disturbing the neighbors. It's also the job of the staff inside the shop to be fast and efficient because we know that there is timed parking. The faster we get customers in and out the better the parking situation. Door person also cleans and air blow the front of the store and the air blows the up and down the sidewalks.

4. Please briefly describe your business's process to respond to and resolve complaints and/or concerns from neighboring businesses or residences.

If complaints are made, the complaint will go directly to a manager. Managers will take any necessary actions to mitigate the problem. If it's too serious for a manager to dissolve the problem the manager will contact the PRF and do what is needed to dissolve the problem. To prevent problems like odor, Brothers has two carbon filters. One located in the packaging room and one in the room of selling product. No complaints so far, Brothers will do as much prevention to not get complaints. Whatever due diligence Brothers can do we will. Brothers take any neighborhood or business neighbors complaint seriously.
