- C. All saw cutting and jack hammering shall be performed before 10:00 pm. Should the need arise for this work to be performed later than 10:00 pm, it must cease no later than midnight (12:00 am) and the Noise Control Office shall be notified the next day.

- I. The noise variance will be reviewed upon receipt of complaints. If complaints are filed, the Noise Control Officer may modify the variance, as needed, to resolve community noise disturbances.
- J. The Applicant will notify the Noise Control Officer by the next morning if the variance was needed to work outside the normally permitted construction hours. The Applicant will keep a running tally of variances days used. This log shall be made available to the Noise Control Office upon request.

To the Applicant:

- 2. Violation of the conditions of this variance constitutes grounds for revocation of the variance, and denial of future applications, and may also result in the issuance of citation(s) for violations of City Code.
- 3. **If a Police or Noise Control Officer should appear, his/her instructions will supersede this variance and take precedence.**
