

Duniway Park Project Update January 2016

Hello Neighbors, Friends, and Users of Duniway Park!

Portland Parks & Recreation (PP&R) and Under Armour announced plans in early July 2015 to move forward with a significant partnership to enhance recreational opportunities for Portlanders.

The athletic apparel and footwear leader and PP&R will team up to enhance athletic facilities within the PP&R system. Duniway Park has been identified as a location for field improvements.

This is the first of several upcoming project updates, in anticipation of construction of the new track and field at Duniway Park. The updates will provide timely information on the project's construction timeline and for park users, how to find an alternative track and field facility during construction.

PP&R is excited to move forward with improvements to Duniway Park and is committed to providing quality and accessible recreational activities, which are needed in Southwest. We also recognize that construction is inconvenient, and we want to keep you informed in advance of potential future impacts and closures.

Construction Timeline

In order to minimize the impacts to users, PP&R plans to begin construction on Duniway Park's track & field in Summer 2016. This will allow us to keep the track and field open during heavy Spring use. Field lighting and improvements to the existing parking lot will not be implemented at this time, but may be considered at a future date.

Summer 2016 Track and Field Installation:

The project scope includes:

- Eight lane 400 meter track with associated throwing and jumping events, such as high jump, long jump, pole vault
- Synthetic turf field
- Safety and pedestrian lighting
