# Chamber Music

for Strings, Winds, & Piano

## Chamber Groups

Play trios, quartets or other works for strings, winds & piano with peers! The Community Music Center (CMC) Chamber Music Program serves the musical development of young musicians by refining ensemble skills & interpretive abilities through instruction with some of the region's top performing-artist instructors. Players are placed into chamber groups by audition. Ensembles have one hour each day with their coach, then rehearse a second hour supervised by an assistant coach. Groups perform their finished work for the public at Director Park in downtown Portland and at CMC.

## Professional Coaching

Instructors are renowned artists from CMC's performing faculty with extensive chamber music experience. The program includes a master class by a Chamber Music Northwest festival artist or ensemble.

# Chamber Orchestra

for Strings & Winds

## Baroque Rules!

**Andrew Ehrlich, conductor**

When are 'fast' notes played slowly, and 'slow' notes played quickly? Are all notes that look the same treated the same? Get into the minds of composers like Bach, Telemann & Vivaldi, and discover new takes on old rules while playing masterpieces of the era.

## Prerequisites for chamber program:

Ability to read music at playing level & some prior ensemble experience; for strings, vibrato and flexible bow technique. Suggested level for violins is Suzuki Book 4 and above, violas & cellos at Suzuki Book 3 or above.

*The summer program is designed for **intermediate to advanced** players age 8 - 18 with to learn and perform new repertoire in an **intensive** environment. The Chamber Music & Chamber Orchestra programs together make a **great day-camp** experience!*

## What People are Saying

*"This is a FABULOUS program! My sons gained so much confidence & were just jubilant after rehearsals."*

*"The coach was superb and brought such a perfect blend of fun, laughter, and delightful learning to the classroom."*

*"My child was self-motivated to practice more."*

*"Well organized and efficient."*
