

## Forest Park Bridges Construction – Trail closures coming this summer!

WILDWOOD TRAIL BRIDGE RENDERING

Construction of the new bridges on the Lower Macleay, Maple, and Wildwood Trails in Forest Park will start in June 2017. Segments of these trails will be closed to the public during construction. Sign up for updates on the construction schedule and find more information at [portlandoregon.gov/parks/69784](http://portlandoregon.gov/parks/69784).

**Lower Macleay Trail** will be closed from the Lower Macleay Trailhead to the intersection with the Wildwood Trail (by the Stone House) for 2-3 months. Access to the ADA-accessible portion of the Lower Macleay Trail *may* be open to the public intermittently if construction allows for safe public access.

**Maple Trail** will be closed between Firelane 4 and the Koenig Trail. This segment of trail has been closed for public use for several years, due to the failure of the old bridge. This work will take 3-4 months.

**Wildwood Trail** will be closed between the Upper Macleay parking lot (at NW Cornell Road) to the intersection with the Lower Macleay Trail for 2-3 months.

The **Lower Macleay Trail** and the **Wildwood Trail** will **NOT** be closed at the same time. Work will be staggered, so one of these trails will be closed and the other will remain open.
